INTRODUCTION: The Zodiac and the Rays, pp. 1-80

What we have to say first on this subject is entirely of a preliminary nature. We seek to lay the ground for a somewhat new approach_ a far more esoteric approach_ to the science of astrology. Certain things we may say will probably be regarded by the academic and uninspired astrologer as revolutionary, or as erroneous, as improbable or unprovable. As yet, however, astrology has not really proved itself to the world of thought and science, in spite of many definitely demonstrable successes. We would ask all of you, therefore, who read and study this section of [-----] to bear in mind the above comments and to preserve a willingness to consider hypotheses and to make an effort to weigh a theory or suggestion and to test out conclusions over the course of a few years. If you can do this, there may come to you an awakening of the intuition which will translate modern astrology into something of real moment and significance to the world. It is intuitional astrology which must eventually supersede what is today called astrology, thus bringing about a return to the knowledge of that ancient science which related the constellations and our solar system, drew attention to the nature of the zodiac and informed humanity as to the basic interrelations which govern and control the phenomenal and subjective worlds.

1. Three Basic Statements.

The statement is frequently made that astrology is an exact science but that is far from correct in spite of the many mathematical computations. Astrology is based, curiously enough, upon illusion for, as well you know, the zodiac is naught but the imaginary path of the sun through the heavens, and this as it appears from the standpoint of our totally insignificant planet. The sun is not, as stated, in any sign of the zodiac. It simply appears to be so as it passes between our little sphere, the Earth, and the constellations at any particular time or season.

In ancient days it was believed that the earth was the centre of the solar system and that around it revolved the sun and all the other planets. This was the exoteric knowledge and position, though not the esoteric understanding. Later, when further discoveries brought more light to the human mind, our planet was decentralised and the truth was more clearly seen, though much remains as yet to be discovered and may even be of as revolutionary a nature. From certain astrological angles, a similar process of decentralisation must take place and the solar system must no longer be regarded as a point around which the zodiac revolves or through which the sun passes in its great cycle of approximately 25,000 years. Astrologers with insight may deny that this is the commonly accepted attitude. Yet_ for purposes of clarity and in connection with the general public_ the inference is permitted and accepted by the ignorant. Upon this theory anent the zodiac rests very largely what we call the Great Illusion, and we would have you bear this in mind as you study with us the newer approaches of this greatest and oldest of all the sciences. Astrology is a science which must be restored to its original beauty and truth before the world can gain a truer perspective and a more just and accurate appreciation of the divine Plan, as it is expressed at this time through the Wisdom of the Ages.

The second statement which we would make is that astrology is essentially the purest presentation of scientific truth in the world at this time, because it is the science which deals with those conditioning and governing energies and forces which play through and upon the whole field of space and all that is found within that field. When this fact is grasped and the sources of those energies are better comprehended and the nature of the field of space is correctly understood, we shall then see a far wider and at the same time a more closely related horizon; the relationships between individual, planetary, systemic and cosmic entities will be grasped, and we shall then begin to live scientifically. It is this scientific living which it is the immediate purpose of astrology to bring about.

At present, the position of the average believer in astrology is that he/she is an individual of importance (at least to himself), that he/she is living on that important planet, the Earth (important to humanity), and that, through astrology, he can discover his destiny and know what he ought to do. In making this comment, we do not refer to those few astrologers who possess real esoteric knowledge. They are few in number indeed, and only a handful of them are to be found practising at this time. The modern investigator likes to believe that on him impinge and through him flow all those energies which come from the sign in which the sun "finds" itself at the time of his birth. He regards himself also as responsive to the forces of the various planets as they govern the houses in his horoscope and he believes that his life trends and circumstances are thus determined. This makes him feel himself to be a factor of isolated importance. Modern interpretations fail to emphasise the importance of the rising sign (the ascendant) and this has been due to the fact that few have been as yet ready to function as souls; small allowance has been made for the energies which play upon our planet all the time from other constellations or from the many "hidden" planets. Of these, the Ageless Wisdom claims that there are around seventy in our solar system.

We desire to give you a truer and more accurate picture. This has now become possible because group awareness, group relations and group integrity are coming to the fore in the human consciousness. As this takes place, the personality which is individual, separative and self-centred will recede increasingly into the background, and the soul, non-separative, group conscious and inclusive, will come more and more to the fore. Interest, therefore, in the individual horoscope will gradually die out, and increasingly the planetary, the systemic and the universal picture will stand out in the awareness of the individual; he will then regard himself only as an integral part of a far more important whole and his world group will interest him far more than himself, as an individual.

We shall not, therefore, deal with the subject of esoteric astrology from the standpoint of the horoscope at all. Universal relationships, the interplay of energies, the nature of what lies behind the Great Illusion, the deluding "Appearances of things as they are," and the destiny of our

planet, of the kingdoms in nature and of humanity as a whole_ these will constitute the major part of our theme.

It is immaterial to us whether modern astrologers accept or reject these presented ideas.

- We will endeavour to give you certain facts as the Hierarchy recognises them;
- we will indicate, if we can, the subjective realities of which the outer illusion is but the phenomenal appearance, conditioned by men's thoughts throughout the ages;
- we will emphasise the fact of the livingness of the Sources from which all the energies and forces which play upon our planet flow and emanate;
- we will endeavour, above all else, to demonstrate to you that all-pervading unity and that underlying synthesis which is the basis of all religions and of all the many transmitted forces;
- we will seek to remove you, as individuals, from out of the centre of your own stage and consciousness and_ without depriving you of individuality and of self-identity_ yet show you how you are part of a greater whole of which you can become consciously aware when you can function as souls, but of which you are today unconscious, or at least only registering and sensing the inner reality in which you live and move and have your being.

This brings us to the third statement, which is so basic and fundamental that we would ask you to pause and contemplate it, even though you grasp not its full implications as yet. The Ancient Wisdom teaches that "space is an entity." It is with the life of this entity and with the forces and energies, the impulses and the rhythms, the cycles and the times and seasons that esoteric astrology deals. [---] stated this in [---]. We would remind you that there is an astrological key to [---] which cannot yet be given in completeness. We can, however, give you some hints and suggest some

lines of approach, and these, if carried in the consciousness of the illumined astrologers, may enable one of them at a later date to discover that key and then_ turning it on behalf of humanity_ reveal the fourth great fundamental of the Ageless Wisdom of which three are already given in the proem of [---].

Space is an entity and the entire "vault of heaven" (as it has been poetically called) is the phenomenal appearance of that entity. You will note that we did not say the material appearance, but the phenomenal appearance. Speculation about the nature, the history and identity of that entity is useless and of no value. Some dim idea, providing analogy even when eluding specifications, might be gained if you will endeavour to think of the human family, the fourth kingdom in nature, as an entity, as constituting a single unit, expressing itself through the many diversified forms of man. You, as an individual, are an integral part of humanity, yet you lead your own life, you react to your own impressions, you respond to exterior influences and impacts, and in your turn you emanate influences, send forth some form of character radiation and express some quality or qualities. You thereby, and in some measure, affect your environment and those whom you contact. Yet all the while you remain part of a phenomenal entity to which we give the name of humanity. Now extend this idea to a greater phenomenal entity, the solar system. This entity is itself an integral part of a still greater life which is expressing itself through seven solar systems, of which ours is one. If you can grasp this idea, a vague picture of a great underlying esoteric truth will emerge into your consciousness. It is the life and the influence, the radiations and emanations of this entity, and their united effect on our planetary life, the kingdoms in nature and the unfolding human civilizations, which we shall have briefly to consider.

The subject is so vast that we have been faced with the problem of the best method whereby to handle it. We decided on brevity, the concise statement of facts (facts to those of us who are working on the inner side of life, but which must rightly be only hypotheses to you) and the avoidance of detail and of detailed discussion. *We will endeavour to work from the universal to the particular and from the general to the specific, but our emphasis will always be on the universal and the general, and not*

upon the particular and specific. It will rest with those of you who are students of astrology to make due application of the truth to the specific. It is definitely in this connection that modern astrology has gone astray. It has reversed the true and right procedure and has laid the emphasis upon the specific and particular, upon the personal horoscope and the individual destiny, and has not laid the emphasis upon the great energies and their Source. These sources are ultimately responsible for the manifestation of the specific. This position and presentation of truth must be altered.

In esoteric astrology we are, therefore, dealing with the Life and Lives which inform the "points of light" within the universal Life. Constellations, solar systems, planets, kingdoms in nature and microscopic man are all of them the result of the activity and the manifestation of energy of certain Lives whose cycle of expression and whose infinite purposes lie outside the comprehension of the most advanced and illumined minds on our planet.

The next point for each of you to grasp is the fact that the ether of space is the field in and through which the energies from the many originating Sources play. We are, therefore, concerned with the etheric body of the planet, of the solar system, and of the seven solar systems of which our system is one, as well as with the general and vaster etheric body of the universe in which we are located. We employ the word "located" here with deliberation and because of the inferences to which it leads. This vaster field, as well as the smaller and more localised fields, provides the medium of transmission for all the energies which play upon and through our solar system, our planetary spheres and all forms of life upon those spheres. It forms one unbroken field of activity in constant ceaseless motion_ an eternal medium for the exchange and transmission of energies.

In connection with this, and in order more correctly to understand, it will be useful to study individual man; in this way we can arrive at a faint comprehension of the basic and underlying truth. Students should never forget the LAW of Analogy as an interpretive agency. Esotericism teaches (and modern science is rapidly arriving at the same conclusion) that

underlying the physical body and its comprehensive and intricate system of nerves is a vital or etheric body which is the counterpart and the true form of the outer and tangible phenomenal aspect. It is likewise the medium for the transmission of force to all parts of the human frame and the agent of the indwelling life and consciousness. It determines and conditions the physical body, for it is itself the repository and the transmitter of energy from the various subjective aspects of man and also from the environment in which man (both inner and outer man) finds himself.

Two other points should here be added. First: the individual etheric body is not an isolated and separated human vehicle but is, in a peculiar sense, an integral part of the etheric body of that entity which we have called the human family; this kingdom in nature, through its etheric body, is an integral part of the planetary etheric body; the planetary etheric body is not separated off from the etheric bodies of other planets but all of them in their totality, along with the etheric body of the sun constitute the etheric body of the solar system. This is related to the etheric bodies of the six solar systems which, with ours, form a cosmic unity and into these pour energies and forces from certain great constellations. The field of space is etheric in nature and its vital body is composed of the totality of etheric bodies of all constellations, solar systems and planets which are found therein. Throughout this cosmic golden web there is a constant circulation of energies and forces and this constitutes the scientific basis of the astrological theories. Just as the forces of the planet and of the inner spiritual man (to mention only one factor among many) pour through the etheric body of the individual man upon the physical plane, and condition his outer expression, activities, and qualities, so do the varying forces of the universe pour through every part of the etheric body of that entity we call space and condition and determine the outer expression, the activities and qualities of every form found within the cosmic periphery.

The second point we would make is that within the human etheric body there are to be found seven major force centres which are in the nature of distributing agencies and electrical batteries, providing dynamic force and qualitative energy to the man; they produce definite effects upon his outer physical manifestation. Through their constant activity his quality

appears, his ray tendencies begin to emerge and his point in evolution is clearly indicated.

This "control of form through a septenate of energies" (as it is defined in the *Old Commentary*) is an unalterable rule in the inner government of our universe and of our particular solar system, as well as in the case of individual man. There are, for instance, in our solar system, seven sacred planets which correspond to the seven individual force centres in man, the seven solar systems, of which our solar system is one, and in their turn the seven energy centres of the One to Whom we have referred in our other books as the One About Whom Naught Can Be Said.

Much has been given in the books of which the average astrologer remains profoundly unaware. It is essential that he learns to think in larger Wholes and to be more deeply concerned with the emanating Sources and with the eternal persistent Causes than with the effects of these Sources upon that ephemeral creation, a human being and his temporary existence upon a most unimportant planet. As he seeks to do this, he will discover for himself the signs of the essential divinity of man_ a divinity which is to be found in the infinite grasp of man's consciousness when illumined by the light of the soul and in his power to project his thought into the consciousness of those manifold Lives Whose "energetic movements" he must perforce share because his small modicum of energy is an integral part of Theirs.

There is one aspect of energy for which the modern astrologer makes very little allowance, and yet it is of paramount importance. This is the energy which emanates from or radiates from the Earth itself. Living as all human beings do upon the surface of the Earth and being, therefore, projected into the etheric body of the planet (for the reason that "man stands erect") man's body is at all times bathed in the emanations and the radiations of our Earth and in the integral quality of our planetary Logos as He sends forth and transmits energy within His planetary environment. Astrologers have always emphasised the incoming influences and energies as they beat upon and play through our little planet, but they have omitted to take into adequate consideration the emanating qualities

and forces which are the contribution of our Earth's etheric body to the larger whole. This we will consider later, but we felt the necessity of calling your attention to it at this time.

Another point which should here be noted is that the influence of the moon is purely symbolic in nature and in effect and is simply the result of ancient thought and teaching (descended to us from Lemurian times) and is not based upon any true radiation or influence. In those far off times, antedating even Lemuria and constituting in Lemurian days simply an ancient tradition, the moon appeared to be a living vital entity. But we would have you bear definitely in mind that today the moon is nothing more than a dead form. It has no emanation and no radiation of any kind and, therefore, has no effect of any kind. The moon, from the angle of the esoteric knower, is simply an obstruction in space_ an undesirable form which must some day disappear. In esoteric astrology, the effect of the moon is noted as a thought effect and as the result of a powerful and most ancient thoughtform; nevertheless, the moon has no quality of her own and can transmit nothing to the Earth. Let us reiterate: The moon is a dead form; it has no emanation at all. That is why the moon is spoken of in the ancient teaching as "veiling either VULCAN or Uranus." This hint or inference has always been here and astrologers would do well to experiment with this suggestion we have made anent the moon and (instead of working with the moon) let them work with VULCAN when dealing with the undeveloped or average man and with Uranus when considering the highly developed man. They would find some interesting and convincing results eventuate.

Students would also do well to remember that the twelve constellations which constitute our particular zodiac are themselves the recipients of many streams of energy coming to them from many sources. These blend and fuse with the energy of any particular constellation and_ transmuted and "psyientificly refined"_ eventually find their way into our solar system.

We would like to call attention, at this point, to some comments we made in [-----] which are apposite and helpful. We are somewhat paraphrasing:

"Astrology is concerned with the effect produced in the substance of the sheaths by the influences, vibrations, etc., of the various planets. These are, esoterically, the influences of the solar centres. The forces, emanating from the solar centres, play upon the planetary centres.... This is hidden in the karma of the Heavenly Man. When true esoteric astrology comes into being, more anent this will be given. Astrological students are today only learning the ABC of this stupendous subject and are occupied with the exoteric fringes of that great veil which has been thrown wisely over planetary lore."

([-----], p. 1051)

The following is a list_ incomplete but adequate for our purposes_ of the major influences which find their way from far distant Sources into our planetary life and produce definite effects upon individual man and humanity as a whole.

1. The constellation of the Great Bear.
- I. 2. The Seven Sisters of the Pleiades.
3. Sirius, the Dog Star.
1. The seven solar systems of which ours is one.
- II. 2. The seven sacred planets of which ours is not one.
3. The five non-sacred planets or "hidden" planets.
1. The seven planetary centres.
- III. 2. The seven centres of force in the human etheric body.
- IV. 1. The twelve zodiacal constellations.

We thus have a ninefold energy impact. This is a major chart but it should be remembered that there are other impacts of relative insignificance.

To these would be added other streams of energy which definitely play upon and affect our planetary life, such as those coming from that great star, Betelgeuse, or from Antares and other stupendous suns and solar systems which are related to the constellations of the zodiac and whose force reaches us through these constellations and not directly.

Besides these, it should be remembered that technically we should also add the radiatory influence which comes direct to us from the planet, the Earth, upon which we live. Then, and only then, can you have a fairly complete analysis and picture of the energies to which the etheric body of man (conditioning the physical body which is pre-eminently automatic and negative in its reactions) must and does ever respond. An understanding of that response and the conscious intelligent control of individual reactions are supremely necessary to man but only become possible at a fairly advanced stage of development and as he/she nears the Path (technically understood). Man learns first of all to control his reactions to the planets as they rule and direct his personality affairs from their different "stations" in the twelve houses of his horoscope. There are two ways in which this is done:

First: By having the horoscope duly cast and then taking steps to determine what should be done to negate the planetary influences where it is deemed desirable to control the personality reactions. This has to be done by the applied power of thought. This necessitates complete confidence in the understanding and interpretation of the astrologer and the recognition of the exact moment of birth. One wonders if these conditions of the exact moment and the completely wise astrologer are ever to be found as yet.

Second: By consciously assuming the position of the spiritual Observer, and by cultivating the power to respond to the Soul. Then, from the angle of that Soul, the man must learn to control circumstance and the attendant reactions of the personality.

The following attitudes and positions taken by the esoteric astrologer should also be noted:

1. That the planetary influences indicate the trend of the outer life circumstances. When correctly interpreted for the average man and for the unevolved man, they can and do indicate the personality destiny and fate; they do condition and completely control the man who has no conscious soul experience. The moment that a man becomes aware of his own soul and is endeavouring to control his own "path in life," the influence of the planets, per se, definitely weakens and steadily becomes less and less; his personality chart appears inconclusive and often most inaccurate. It is the force flowing through the planets and not the force of the planets themselves which then governs and controls. The man then becomes receptive to the subtler and higher energies of the solar system and of the twelve governing constellations.

2. That the Sun sign, as it is called, indicates the nature of the man, physical, mental and spiritual. It holds the secret of the personality ray and of the man's responsiveness or lack of responsiveness to the Soul, the real man. It indicates also the integration already achieved and the present point of unfoldment of the soul qualities, of the present available equipment, of the present life quality and of the immediately possible group relations. It indicates, from the angle of the Ageless Wisdom, nothing more. This is a reversal of the usual astrological position. The reason that we proffer this is that humanity is enough evolved so that the astrology of the soul will become possible before long; it constitutes_ from many points of view_ a reversal of normal procedure. This is both wise and necessary, and also inevitable. Astrologers will eventually be divided into two classes: the exoteric astrologers who will be occupied with the horoscope of the personality, and the esoteric astrologers who will be occupied with the purposes of the soul.

3. That the rising sign indicates the remoter possibilities, and the spiritual goal and purpose of the immediate incarnation and of the immediate succeeding incarnations. This sign concerns itself with the struggle of the spiritual man "to carry on" from the point achieved so that when the life energy is temporarily exhausted and the "death of the personality" takes place, the man finds himself "nearer the centre of his life, closer to the centre of his group and approaching the centre of divine life," as the Ageless Wisdom expresses it. This particular phrase "death of the personality" has two definite connotations:

a. It may mean the death of the physical body, which is inevitably followed by the two stages of the death of the emotional vehicle and the subsequent dissipation of the temporary and ever-changing form which the quota of mental energy has assumed during incarnation.

b. The subjective and mystical "death of the personality." This is a phrase indicating the transfer of the focus for the distribution of energy from the personality (a definite centre of force) to the soul (another definite centre).

We realise that these concepts are not in line with the usual astrological postulates. However, astrology would not be wasting time if it experimented with these ideas for a while. Astrologers might discover some most interesting and arresting problems and perhaps arrive at an accuracy which is at present unknown. It might be of some service if we enlarged somewhat upon this point:

In connection with the sun sign, the rising sign and the effect of the thoughtform relating to the moon, the position of esoteric astrology is as follows:

1. The sun sign._ This sign indicates the present problem of the man; it sets the pace or the established tempo of his personality life; it is related to quality, temperament and the life tendencies which are seeking expression during this particular incarnation, and it is suggestive of the rajasic or the activity aspect of the innate man. Fundamentally, the forces here found are indicative of the line of least resistance.

2. The ascendant or rising sign indicates the intended life or immediate soul purpose for this incarnation. It holds the secret of the future and presents the force which, rightly used, will lead the man to success. It represents the sattvic or harmony aspect of life and can produce right relationship between soul and personality in any one incarnation. It thus points the way to the recognition of the force of the soul.

3. The moon._ This type of force (coming from certain planets and not from the moon) indicates that which is past. It, therefore, summarises limitation and the present handicaps. It governs the physical body and shows where the prison of the soul is to be found.

The next statement which we would like to make, and which grows normally out of the above, is that the zodiacal, the systemic and the planetary energies act either as hindering or as stimulating forces, according to the type of vehicle or body upon which they play; the nature of these vehicles and their capacity to attract, to respond, to reject, to absorb and to transmute is entirely dependent upon the point in evolution attained and also upon the general planetary condition and psychology to be found in the human family at any given time. An instance of the latter can be seen today in the world where the forces, beating in an almost violent and somewhat new measure and tempo upon our planetary life, are evoking a greatly intensified response from the world thinkers, thus stimulating them to earnest effort along ideological lines and, at the same time, are drawing forth from the masses and the little evolved people nothing but terror, a miserable fatalism, widespread physical depletion and many other undesirable reactions from the form nature. An understanding of these hindering or stimulating effects can be easily grasped by those who can comprehend the nature of the activities of the

planet, Saturn. This is the planet which conditions primarily the point in evolution where choice definitely becomes possible, where rejection of opportunity or its acceptance can consciously be undertaken, and the shouldering of personal responsibility becomes a recognised fact in a planned and ordered life. This point in the human evolutionary process is spoken of in the *Old Commentary* in the following symbolic phrases:

"Amid the whirling forces, I stand confused. I know them not, for, during all my past, they swept me up and down the land wherein I moved, blinded and unaware. From place to place and point to point, they drove me up and down the land and nowhere was there rest.

I know them now and here I stand and will not move until I know the LAW which governs all this movement up and down the land. I may revolve and turning face the many different ways; I face some wide horizons and yet today I stand.

I will determine for myself the way to go. Then onward I will move. I will not travel up and down the land nor turn in space. But onward I will move."

There is another revolutionary idea which the esoteric science of astrology brings to its modern and exoteric aspect: In the greater cycle of man's many incarnations, he/she_ as is well recognised_ passes through the zodiacal circle from Pisces to Aries, thus retrograding through the signs as he follows the sweep or path of the Sun's retrogression. This phrase has always disturbed us, but the apparent retrogression, based upon the precession of the equinoxes, is all an integral part of the Great Illusion. The moment a man begins to emerge out of that illusion and is no longer subject to the glamour and to the effect of the world maya, that moment the motion of the great Wheel of Life is reversed and he/she then begins (slowly and laboriously) to work in the opposite direction.

- He then passes through the signs from Aries to Pisces.
- He begins patiently and consciously to function as a soul struggling towards the light until finally he/she emerges at the end of the Path in Pisces as a world Victor and a world Saviour.

- He then knows the significance of the triumph over death because he/she has surmounted and overcome desire.

This reversal of the way a man travels through the signs of the zodiac will necessitate a readjustment of the method employed by astrologers when they are casting a horoscope of senior aspirants, of disciples and of INITIATES.

According, therefore, to an individual's point of evolution upon the Path or (in other words) the individual's place upon the wheel of life, the practising astrologer will arrange the interpretation of the horoscope. *It will require the work and the thought of the intuitive astrologer, dependent upon soul contact and much meditation, to determine the processes of astrological interpretation for those who are active and living souls at some one or other of the final stages upon the Path.* The casting of the horoscope of the average man or the undeveloped man presents no such difficulties.

It might be added in addition that the signs of the zodiac are concerned primarily with the life expression of the Heavenly Man (as far as our planet is concerned) and therefore with the destiny and life of the planetary Logos. They are also concerned with the great man of the heavens, the solar Logos. We refer in this last instance to their effect as it makes itself felt in the solar system as a whole and with this effect there are few astrologers at this time fit to deal. We would remind you that to the lives who inform these great constellations and whose radiation _ dynamic and magnetic_ reaches our Earth, this effect is incidental and unnoticed. The primary effect that they have is upon our planetary Logos and this effect reaches us through Him, pouring through that great planetary centre to which we have given the name of Shangri-Lha. It is, therefore, capable of evoking the major response from the monads, and these monads express themselves through the kingdom of souls and through the human kingdom; it consequently expresses itself through the Hierarchy and through humanity as a whole. This is a point of real importance and should be noted and connected with all the teaching you have had upon this most interesting theme of the three major planetary centres. It is the work of the zodiacal influences to evoke the emergence of the will aspect of the Heavenly Man and of all monads, souls and personalities who constitute the planetary body of expression. This statement means but little to you today but it will mean much to those students who, in a few decades, will

study what we are here saying. Properly understood, it accounts for much that is happening in the world at this time.

As these influences pour through our planet and thence to the centres of force upon the planet, they produce a dual effect:

1. They produce an effect upon advanced man, galvanising the centres above the diaphragm into activity and enabling him to respond to the radiation and the activity of the Hierarchy.
2. They produce an effect upon unevolved man, enabling him to function as an ordinary, unenlightened human being.

It should be noted here, however, that all the energies_ zodiacal, systemic, and planetary_ have a definite effect upon all the lives in all forms in all kingdoms of nature. Nothing can escape these radiatory and magnetic influences. The goal of evolution for humanity is to become consciously and livingly aware of the nature of these energies and begin to know them and to use them. This is the field of psyientism as the Hierarchy has always told men. It might be stated that the disciple has to become consciously aware of the planetary influences and begin to use them for the carrying out of soul purpose. The INITIATE has to be aware of the zodiacal influences which emanate from outside of the solar system altogether. These can be recognised as

- a. A vibration, registered in one or other of the seven centres.
- b. A revelation of a particular type of light, conveying a specific colour to the INITIATE.
- c. A peculiar note.
- d. A directional sound.

The whole story of the zodiac can be picturesquely yet accurately summed up in the following statement: There are three books which the three types of human beings study and from which they learn:

1. The Book of Life_ INITIATES_ the 12 constellations.
2. The Book of Wisdom_ Disciples_ the 12 planets.
3. The Book of Form or of Manifestation_ Humanity_ the 12 Creative Hierarchies.

In summation, it might be said that:

1. The zodiacal signs affect primarily the man who lives below the diaphragm. This is the ordinary average man. These signs thus condition four of the centres:

- a. The base of the spine.
- b. The sacral centre.
- c. The solar plexus centre.
- d. The spleen.

2. The inner group of solar systems, working in conjunction with the zodiacal signs, affect primarily those who live above the diaphragm. They, therefore, condition:

- a. The heart centre.
- b. The throat centre.

c. The ajna centre.

d. The head centre.

3. Three of the energies work through the head centre but only after the third initiation.

There are one or two other points which might be noted here also. We note them for your enlightenment. Out of all the many energies which impinge upon, pass through and produce effects upon our planet, esoteric astrology emphasises the following four types of force because they affect what might be called the personality of our Earth:

1. The quality of our solar system. God is a consuming fire but God is also love. This is the teaching of both esoteric and exoteric truth.

2. The quality of the Logos of our planet as it pours through the chains, the rounds, the races, and the kingdoms of nature.

3. The quality of the Earth's complementary planet, which is the Earth's polar opposite, esoterically considered. This planet is Venus.

4. The quality of the attraction of the three planets which produce an esoteric triangle of force.

We have several times used the phrase "pass through" the centres and forms. This concept necessitates the idea of distributing centres to which the incoming energies may go and from which they may pass out again as radiation. Some idea of this might be grasped if we gave you the new

proposition (new to you though old to esotericists) of the centres in the human etheric body. The four centres above the diaphragm_ the heart, throat, ajna and head centres_ are basically and primarily receiving centres. The centres below the diaphragm_ the base of the spine, the sacral, solar plexus and spleen centres_ are galvanised into activity by the four higher receiving centres. This, when accomplished, demonstrates as personality and physical magnetism and influence until the time comes when there is a reversal in the way of passing_ as a soul_ around the zodiac. This is symbolised as the revolution of the sun around the zodiac from Aries to Pisces instead of the reverse movement, from Aries to Taurus. This is repeated in the human frame and the four lower centres eventually return that which has come to them. They thus reverse the process normally followed and the centres above the diaphragm become radio-active, dynamic and magnetic. This is an intricate psyientific study and is concerned with the response of the etheric body to the incoming energies. It relates finally the lowest centre at the base of the spine to the highest centre, the head centre. This is a correspondence to the relation of the Earth to the Sun. Think this out.

As we work and study over these matters, let us bear in mind always the fact that we are considering the seven rays and their inter-relations in the cosmic process. We are concerned esoterically with:

1. The seven rays and the twelve signs of the zodiac.
2. The seven rays and the twelve Creative Hierarchies.
3. The seven rays and the planets as they govern the twelve houses of expression.

As we ponder and think and as we correlate the various aspects of the teaching, we shall find three propositions emerging which govern the inflow of life to the planet and to the individual man. These have been laid down earlier in [-----] but it might profit us to state them here:

Proposition One_ Every ray life is an expression of a solar life and every planet is therefore:

1. Linked with every other planetary life.
2. Animated by energy pouring into it from the seven solar systems, of which ours is one.
3. Actuated by three streams of force:
 - a. Coming from solar systems other than our own.
 - b. Our own solar system.
 - c. Our own planetary life.

Proposition Two_ Each one of the ray lives is the recipient and the custodian of energies coming from

1. The seven solar systems.
2. The twelve constellations.

Proposition Three_ It is the quality of a ray life_ manifesting in time and space_ which determines the phenomenal appearance.

Before we penetrate further into the consideration of our theme, we would like to emphasise two points:

First of all, that we are considering esoteric influences and not astrology, per se. Our subject is the seven rays and their relationship to the zodiacal

constellations or_ in other words_ the interaction of the seven great Lives which inform our solar system with the twelve constellations which compose our zodiac.

Secondly, that we have necessarily to study these energies and their interplay from the angle of their effect upon the planet, and incidentally, their effect upon the forms in the various kingdoms of nature and particularly in connection with the fourth kingdom, the human, and with individual man_ average man, the disciple and the INITIATE.

We shall enter into no definitions in connection with technical astrology, nor shall we use the many technical terms. If, in the presentation of this vast subject, and in the process of indicating the attitude of the Ageless Wisdom to this new and coming (yet very ancient) "science of effective energies," as it has been called, we may present a new approach, or point out an unsuspected relation and from the standpoint of the Ageless Wisdom correct what are deemed errors by the Teachers on the inner side of life, we are am hoping that some astrologers may be found who will be sensitive to that which is new. We are believing that there are investigators along astrological lines who will be open-minded enough to recognise possible hypotheses and then to make fair experiment with them. May we repeat: we are not writing a treatise upon astrology, but one upon the seven rays and their equivalent and corresponding energies, upon the effects of ray energy and the interplay of these energies with, and their effect upon, the various planetary forces, particularly those of the Earth. We are looking for these fair-minded astrologers to make due experiment with the factors and suggestions which we may indicate. With this in mind, let us proceed.

We have pointed out that these energies fall into three groups:

1. Those coming from certain great constellations which are to be found active in relation to our solar system and which, from the most ancient days, have always been related in myth and legend to our system. To these constellations, ours is related in a peculiar way.

2. Those coming from the twelve zodiacal constellations. These are recognised as having a definite effect upon our system and our planetary life.

3. Those coming from the planets found within the periphery of the Sun's sphere of influence.

From a certain point of view, one can generalise largely and say that these are the correspondences in the solar system to the three great centres of force which produce and control manifestation and evolutionary progress in the human being:

1. The great exterior, yet controlling, constellations are analogous to that centre of force which we call the Monad and to its universal will-to-power which is distinctive of the first divine aspect.

2. The twelve constellations might be regarded as embodying the soul aspect and, for the present, their effect upon the individual must be regarded and should be studied in terms of consciousness and of the development of the life of the soul. This is in essence the will-to-love.

3. The planets, twelve in number (seven sacred planets and five non-sacred), are effective (using the word in a technical sense) in relation to the external life, environment and circumstances of the individual. Their force contacts should be interpreted largely in terms of the human personality, the third divine aspect. They thus exemplify the will-to-know.

We would have you remember that we are talking entirely in terms of consciousness and of the responses and reactions of the individual to the forces which impinge upon him. The effect of the emanation of our planet, the Earth, is a correspondence to the effect of that aggregate of atoms and molecules which we call the dense physical body and of its response to the pull and the attraction of any or all of the subtler bodies.

As regards the influence of the seven solar systems, we should suggest (more we cannot do) that they are linked up astrologically with the constellations, the Great Bear, the Pleiades, and Sirius. They are intimately related to them, but their exact effect is a transmitted one and cannot be noted as producing noticeable results, as yet, upon humanity and the other kingdoms in nature. The effect of the three great constellations also cannot be noted by individual man until such time as he becomes conscious of the monadic vibration, after the third initiation.

There are many potent influences playing upon our solar system and the planet all the time but_ as far as man is concerned_ his response apparatus and his mechanism of reaction remain what is called "psyientificly unresponsive," for they are not yet of a quality which will permit any noticeable recognition, either in the dense or subtler vehicles or even by the soul. Later in the evolutionary process, recognition and response will come, but for all astrological purposes and recognisable produced effects, they may be regarded today as non-existent except as they react upon the fourth kingdom of nature as it constitutes a living unit in the body of the planetary Logos. As little conscious effect is produced by these forces as the effect of a high moment of contact in your morning meditation produces an effect upon the atom or cell in the little finger upon one of your hands. There may be a general response and stimulation throughout the entire body, but the intelligent atom makes no conscious response. The vibration is of too high a character.

Speculation along these lines is profitless. A vast system of interlocking energies is in active and rapid circulation throughout the whole cosmic etheric body_ of which our systemic etheric body is an integral part_ but speculative research along the indicated lines and the following of obscure trails are utterly futile until the main highway of approach has been constructed and followed. The general outline of the astrological way is all that is possible today, until the time when man can think in larger wholes and has a more synthetic capacity. We shall confine ourselves to the vast field of energies which we have outlined for your consideration and shall consider only the major forces which are in circulation. This will suffice for our day and generation. We are concerned with energies which can and do evoke response and of which man can be aware and, in many cases, is today aware.

It might be useful here to comment in a wide and general way, and with many necessary reservations, upon the broad sweep of some of these responses:

1. Undeveloped humanity is primarily conditioned in its life and circumstances by the influence of the lesser zodiac and thus by the position of the planets in the twelve houses.
2. Average intelligent humanity and those nearing the Path of Discipleship and upon the Probationary Path respond consciously to

- a. The planets, affecting their personalities.
- b. The Sun sign, as indicating life trends which are already established and which constitute the line of least resistance.
- c. The rising sign in a small measure. This indicates the life goal for that particular life cycle or else over a period of seven lives. The last two constitute the Greater Zodiac.

3. Disciples and INITIATES can begin consciously to respond to all the above influences, handling them constructively, plus those potent yet infinitely subtle forces which pour into our solar system from the three major constellations referred to above. In the early stages, the response is in the subtler bodies and the brain fails to register them, but after the third initiation, there is a recognition of them upon the physical plane.

Bringing the theme back to the subject of this treatise, which is that of the seven rays, we would point out that these rays have a close connection with the seven stars of the Great Bear (again always the four and the three as a secondary differentiation) and to the seven Sisters, the Pleiades. The first constellation is the agent of positive force to the planetary Logos and the other the relayer of the negative aspect. There is, therefore, a direct interchange of energies between the lives of the seven planetary Logoi and the stupendous and unfathomable Lives Who inform these major constellations. Great interlocking triangles of force can be found existing between the seven planets and these two groups of seven stars each. It will eventually be discovered that the innermost secret of astrological deduction in the planetary sense is connected with these "sacred triangles," and they are_ in their turn_ represented by the triangles (shifting and changing) which can be constructed in connection with the seven centres.

In casting the horoscope of the planet (which will some day be possible) it will be found that the line of these forces and of our planetary response to them is of a more potent effect than is the influence of the zodiacal constellations upon the human unit. This is due to the immeasurably advanced point in evolution of the planetary Spirits Who have (in Their individual lives) largely transcended the influence of the twelve constellations and are becoming rapidly responsive to the higher vibrations of their great Prototypes, the "three intimate constellations," as

they have esoterically been called. This is a correspondence in the lives of these great Entities to the manner in which an advanced individual can offset the influence of the planets and thus so dominate his personality life that prediction and certainty, as to activity and circumstance, are no longer possible. The soul is dominating, and the planets cease to condition the life. So it is with the constellations and the planetary Logoi. They can offset the lower influences as They awaken to and respond to the infinitely higher vibrations of the three major constellations.

2. The Creative Hierarchies.

It might here be appropriate if we interpolated a chart or a tabulation which may be found suggestive of some of these interlocking energies which play through, traverse, return, stimulate and energise every part of our solar system. They only evoke conscious response where the vehicle of expression and of response is adequate to the impact, and this statement is true of the solar Logos, the planetary Logoi, and of all forms in all the kingdoms upon our planet. Unconscious reaction will of course exist, but it will be on a general or mass scale, and much of it pours through to us from these distant constellations, via the fifth Creative Hierarchy. This Hierarchy, being on the verge of liberation, is to be found on the intellectual level of consciousness and can, therefore, be used as a focal point and a transmitter of the higher energies to our solar system and to the planet. If you make a careful study of the chart of the *twelve Creative Hierarchies*, you will note that this Hierarchy is influencing, and is influenced by, the *seventh Ray of Magical Order and of Ceremonial Organisation*. The basic function of this ray is to relate spirit and matter and produce the manifested form. The sign of the zodiac with which it is closely connected is that of Cancer, the Crab, which is a mass sign and one of the "gates" into manifested life.

The following information anent the Hierarchies may prove useful. It has been gathered from various sources.

We might here remind you that the seven planes of our solar system are the seven subplanes of the cosmic physical plane. The four Creative Hierarchies which have achieved liberation are now to be found focussed upon the cosmic astral plane; hence their potency even when out of manifestation. The fifth Creative Hierarchy exists on the highest etheric

level and will join the other four Hierarchies when the sixth Creative Hierarchy has measured up to cosmic opportunity and is itself nearing liberation. The following is a tabulation showing some of the astrological relationships in connection with

1. The constellation of the Great Bear.
2. The Pleiades or the Seven Sisters.
3. Sirius.
4. The seven solar systems.

NOTE: Much in this chart may seem obscure and even inconuous. For instance:

- Sagittarius coming between Capricorn and Aquarius. This is a temporary emphasis and will change in another world cycle. This is one of the mysteries revealed at Initiation.
- The inactivity of the five Hierarchies who are out of incarnation, having achieved liberation, is only on the lower planes.

1. The Hierarchy of Creative Powers is divided esoterically into seven (4 and 3) within the Twelve Great Orders.

2. Three Hierarchies are_ in this greater cycle_ of profound significance, the fourth or human Creative Hierarchy and the two deva / angel Hierarchies, the fifth and the sixth.

3. The fourth Creative Hierarchy is in reality the ninth and that is why it is called the Hierarchy of INITIATES. This can be seen by referring to the chart.

4. We are told in [-----] that in the ninth, tenth and eleventh Hierarchies (counting from the bottom upwards) lies the clue to the nature of Agni, the Lord of Fire, the sum total of systemic vitality.

5. Much light can come to the earnest student through a study of the numbers connected with these Hierarchies.

a. The first 5 are regarded as pure abstractions.

b. Hierarchy One has the numbers_ 6.1.7.

Hierarchy Two has the numbers_ 7.2.6.

Hierarchy Three has the numbers_ 8.3.5.

Hierarchy Four has the numbers_ 9.4.4.

Hierarchy Five has the numbers_ 10.5.3.

Hierarchy Six has the numbers_ 11.6.2.

Hierarchy Seven has the numbers_ 12.7.1.

It is necessary to take note of this as in [---] reference will be found to the Hierarchies under different numbers. This serves to conceal, but it will also confuse the student.

6. The first four Hierarchies achieved liberation in the first solar system. Their influence reached our Earth through the medium of the fifth Creative Hierarchy.

7. These are, therefore, related to the four rays which work as minor rays of Attribute under the great major third Ray of Active Intelligence.

8. Pisces is seen at the head of the list of zodiacal signs because it is governing the present great astrological world cycle of 25,000 years. It was also one of the dominant signs, influencing our planet at the time of individualisation when the human kingdom came into being. It is basically related to the first or highest Creative Hierarchy which is, in its turn, related to the third Ray of Active Intelligence. It was the product of the first solar system. The development of illumination through an awakened intelligence is the first goal of humanity.

9. The fifth Creative Hierarchy (also numbered 8) is on the verge of liberation. It is peculiarly connected with the tenth Creative Hierarchy, with the constellation Capricorn and with the human personality which veils and temporarily hides the Christ principle behind both form and mind. Eight is, under some numerical systems, regarded as the number of the Christ.

10. The Greater Builders and the Lesser Builders, working on the second and third planes of our solar system, have their activities reflected in the work of the Lunar Lords and the elemental lives.

11. You will note that the human Hierarchy (on chart 9-IV-4) is assigned no particular element as it has to fuse and synthesise them all. This is part of the great tests of initiation under Scorpio.

12. This chart is drawn up in relation only to the fourth Creative Hierarchy, the human. It is not drawn in relation to the other planetary manifestations.

(The chart has been compiled from the very limited stock of knowledge that has thus far been revealed on the subject, and it is as correct as possible under the circumstances.)

Each of the seven Hierarchies of Beings, found within the Twelve, Who are the Builders or the Attractive Agents are (in their degree) intermediaries; all embody one of the types of force emanating from the seven constellations. Their intermediary work, therefore, is dual:

1. They are the mediators between Spirit and matter.
2. They are the transmitters of force from sources extraneous to the solar system to forms within the solar system.

Each of these groups of beings is likewise septenary in nature, and the forty-nine fires of Brahma are the lowest manifestation of their fiery nature. Each group also may be regarded as "fallen" in the cosmic sense, because involved in the building process, or the occupiers of forms of some degree of density or another.

Hierarchy I. The first great Hierarchy is emanated from the Heart of the central Spiritual Sun. It is the Son of God Himself, the First Born in a cosmic sense, even as the Christ was the "Eldest in a vast family of brothers," and the "first flower on the human plant." The symbol of this Hierarchy is the Golden Lotus with its twelve petals folded. [...] I. 233-250. III. 565.

It should be remembered that this Hierarchy is literally the sixth, for five hierarchies have passed on, being the product of the earlier system, that wherein Intelligence or Manas was the goal. The five liberated Hierarchies are in their totality the sum total of manas. It is the Hierarchy which is the fifth in order, and which we are told is in process of achieving final liberation, or taking its fourth Initiation, which is the cause of certain phenomena upon our planet which has merited our planet being called the "Star of Suffering." There is a karmic link between the animal kingdom and the fifth Creative Hierarchy of the earlier system which makes itself

felt in man in the necessary crucifixion of the animal physical nature, particularly along sex lines. We must remember that the Hierarchies work under the LAW of Attraction; it is the law of the Builders.

This first (sixth) Hierarchy has for its type of energy the first aspect of the sixth type of cosmic electricity, and wields special power, therefore, in conjunction with the lowest fire, or "fire by friction," as it makes itself felt on the sixth plane. These lives are called "the burning Sons of Desire" and were the Sons of Necessity. It is said of them in the *Old Commentary*. "They burned to know. They rushed into the spheres. They are the longing of the Father for the Mother. Hence do they suffer, burn, and long through the sixth sphere of sense."

Hierarchy II. The second Hierarchy is closely allied with the Great Bear. We are told that They entered through the second ventricle within the Sacred Heart, and are (as we are told in [---]) the prototypes of the Monads. They are the source of monadic life, but They are not the Monads; They are far higher.

This Hierarchy, which is literally the seventh, is the influx into our system of those Lives who in the first solar system remained on their own plane, being too sinless and holy to find opportunity in that very material and intellectual evolution. Even in this, they will find it impossible to do more than influence the incarnating Jivas, imparting to them ability to realise the nature of group consciousness, the quality of the seven Heavenly Men, but not being able to express themselves fully. Some clues to this mystery will come if the student carefully bears in mind that in our solar system and our seven planes, we have only the physical body of the Logos, and that that physical body is a limitation of the expression of His threefold nature. The first (sixth) Hierarchy might be viewed as endeavouring to express the mental vibration of the solar Logos and the second, His emotional, or cosmic astral, nature.

This second (seventh) Hierarchy has for its type of force the second aspect of the seventh type of force from out of the many. Some idea of the relative point in evolution of the solar Logos may be gained by study of the varying aspects of force which He is demonstrating in this particular incarnation. It is this energy which drives the Monads through into physical incarnation, for it makes itself felt on the seventh plane. The energies which are functioning are those which the Logos has unfolded, and are the gain of previous incarnations. Gaps necessarily occur, and certain types of force are lacking because He has as yet much cosmically to gain.

It is the energy of this Hierarchy which results in the manifestation of the Divine Androgyne, and in the seven centres of force which are the seven Spiritual Energies.

Hierarchy III. The third Creative Hierarchy (or the eighth) is a peculiarly interesting one. They are called "the Triads" for They hold in themselves the potencies of triple evolution, mental, psychical, and spiritual. These Triads of Life are inherently the three Persons of the Trinity and the flower of the earlier system from a certain angle. From another angle, when studied as the "flower of the earlier Eight," They are the eightfold points awaiting opportunity to flame forth. They are the devas who are ready for service, which is to give to another Hierarchy certain qualities which are lacking. This Hierarchy is regarded as the great donors of immortality whilst Themselves "standing aloof from incarnation." Lords of Sacrifice and Love are They, but They cannot pass out of the logoc etheric body into the dense physical vehicle.

This third Hierarchy wields the third aspect of electric force of the first type of cosmic energy. They stand for a recurrent cycle of that first type symbolised by the number 8. The formulae for these electrical energies are too complicated to be given here, but the student should bear in mind that these Hierarchies express:

1. Septenary cosmic energy.
2. Cosmic prana.
3. Solar energy or electric fire, solar fire and fire by friction.

Each Hierarchy manifests a triple energy or an aspect of each of the above, and that necessitates a ninefold differentiation, for the two first are triple, as is the third. It is the rejection of the Triadal lives by units in the fourth Hierarchy, that of the human Monads, which precipitates a man eventually into the eighth sphere. He refuses to become a Christ, a Saviour and remains self-centred.

We have dealt with the first three Hierarchies which are regarded as ever "seeing the Face of the Ruler of the Deep," or as being so pure and holy that Their forces are in realised contact with Their emanating source.

We now take up for brief consideration two Hierarchies which closely concern ourselves, the human self-conscious entities. These two groups are literally three, as the fifth Hierarchy is a dual one, and it is this which has led to some confusion and is the psyientific significance behind the ill-omened number thirteen. They are the "Seekers of satisfaction" and the cause of the second fall into generation, the fact behind the taking of a lower nature by the Ego. The fourth and the fifth Hierarchies are the ninth and tenth, or the "INITIATES" and the "Perfect Ones." All human beings, or "Imperishable Jivas," are those who evolve through a graded series of initiations, either self-induced or brought about on our planet with extraneous aid. They achieve through a "marriage" with the order next to them, the fifth. They are then completed or perfected, and it is owing to this psyientific fact that the fourth Hierarchy is regarded as masculine and the fifth as feminine.

Hierarchy IV. The fourth Creative Hierarchy is the group wherein the highest aspect of man, his "Father in Heaven" finds place. These lives are the points of fire who must become the flame; this they do through the

agency of the fifth Hierarchy and the four wicks, or the two dual lower hierarchies. Thus it can be seen that where man is concerned, the fourth, fifth, sixth and seventh Hierarchies are, during the cycle of incarnation, his very self. They are the "Lords of Sacrifice" and "Lords of Love," the flower of Atma-Buddhi.

In studying these Hierarchies, one of the most valuable lessons to be learned is the place and importance of man in the scheme. The Hierarchy, for instance, which is the essence of the intangible Life of Spirit, the principle of Buddhi, is the esoteric cause of the cosmic marriage of spirit and matter, based on the love and desire of the Logos, but each Hierarchy also expresses itself through one particular manifestation which comes to be regarded by the finite mind of man as the Hierarchy itself. This is not so, and care must be taken to distinguish between these Hierarchies.

They are latent germs of force centres and manifest subjectively; they warm and vitalise groups of forms; they flower forth and express themselves through the medium of a form, or another Hierarchy. These Hierarchies are all interrelated and are negative or positive to each other, as the case may be.

As is stated in [---], I. 238, this Hierarchy is the nursery for the incarnating Jivas; and it carried in it the germs of the Lives which achieved the human stage in another solar system, but were not able to proceed beyond that owing to the coming in of pralaya, which projected them into a state of latency. The condition of the Hierarchy is similar, only on a cosmic scale, to the condition of the seeds of human life held in a state of obscurity during an interchain period. The three other Hierarchies dealt with (first, second and third) were those who have (in previous kalpas of logic manifestation) passed beyond the human stage altogether. They are, therefore, the arupa or formless groups, as the remaining are the rupa groups or those having forms.

The fourth Creative Hierarchy, or the ninth, must ever be regarded in this solar system as occupying what might be considered as the third place,

First, the Lives or the three Persons of the Trinity.

Second, the Prototypes of man, the seven Spirits.

Third, man or the lowest manifestation of the self-conscious Spirit aspect.

This needs to be carefully considered and has no reference to the form aspect but solely to the nature of the Lives expressing themselves through other lives who are also self-conscious, or fully intelligent. This, certain of the Hierarchies are not.

The four lower Hierarchies are all concerned with manifestation in the three worlds, or in the dense physical body of the solar Logos. They are Those who can discard or pass through the etheric body of the solar Logos and take forms composed of either gaseous, liquid, or dense substance. The others cannot. They cannot fall into physical generation.

Students must bear in mind that from the standpoint of the Logos, the solar Angels on the mental plane (the fifth subplane of the cosmic physical plane) are in physical incarnation, and what is called the "second fall" applies to this. The first fall has reference to the taking of a form of cosmic etheric matter, such as is the case with the Heavenly Men, the prototypes of the human jivas. In this latter case the bodies used are called "formless" from our standpoint, and are "vital bodies," animated by cosmic prana. In the case of ourselves and the remaining groups, the forms are composed of substance of the three lower planes (that which the Logos does not regard as a principle) and, therefore, matter responding still to the vibration of the earlier system. This means that the four lower Hierarchies are links between the life of the past and of the

future. They are the present. They had not finished their contacts with the active intelligent principle of the preceding kalpa, and so must continue such contacts in this. They will work out of it in this system, the four will become the three and they will then be the three higher arupa Hierarchies of the next system.

Before continuing our consideration of the particular Hierarchies, it is necessary to point out that in these Hierarchies, certain of them are termed "dominant hierarchies" and others "subsidiary hierarchies." By this is meant that certain of them are expressing themselves in this solar system more fully than the others, and this necessarily entails the consequence that their vibration is more to be felt than that of the subsidiary groups. The dominant groups are the second, fourth and fifth, and this because:

a. The second is the great expression of duality, of the Son as He vitalises the Sun.

b. The fourth is the Hierarchy of human Monads who are the mediators or the synthesisers; they express the gain of System 1 and the goal of System 2.

c. The fifth or tenth is closely linked with the five liberated Hierarchies, and is an expression of their synthesised life. It might, therefore, be said that the fifth Hierarchy serves as the representative of the five liberated groups, and the fourth is the representative group in this system, whilst the second represents (for man, or these two groups united) that which is the Spirit aspect, the Father, the Unknown.

Hierarchy V. The fifth Creative Hierarchy is, as we know from study of [---], a most mysterious one. This mystery is incident upon the relation of the fifth Hierarchy to the five liberated groups. This relation, in connection with our particular planet, which is not a sacred planet, can be somewhat

understood if the history of the Buddha, and His work is contemplated. This is hinted at in the third volume of [---].

The relation of the fifth Hierarchy to a certain constellation has also a bearing upon this mystery. This is hidden in the karma of the solar Logos, and concerns His relationship to another solar Logos, and the interplay of force between Them in a great mahakalpa. This is the true "secret of the Dragon," and it was the dragon-influence or the "serpent energy" which caused the influx of manasic or mind energy into the solar system. Entangled closely with the karma of these two cosmic Entities, was that of the lesser cosmic Entity Who is the Life of our planet, the planetary Logos. It was this triple karma which brought in the "serpent religion" and the "Serpents or Dragons of Wisdom," in Lemurian days. It had to do with solar and planetary Kundalini, or Serpent fire. A hint lies in the fact that the constellation of the Dragon has the same relation to the ONE greater than our Logos as the centre at the base of the spine has to a human being. It concerns stimulation, and vitalisation with a consequent co-ordination of the manifesting fires.

A clue to the mystery lies also in the relation of this fifth group to the two contracting poles. They are the five-fold Links, the "Benign Unifiers" and "the Producers of the Atonement." Esoterically, they are the "Saviours of the Race" and from Them emanates that principle which_ in conjunction with the highest aspect_ lifts the lower aspect up to Heaven.

When these mysteries are carefully studied, and due application made to the lives of the greatest exponents of the at-one-ing principle, it will become apparent how great and all-important is their place in the scheme.

It is for this reason that the units of the fifth Hierarchy are called "The Hearts of Fiery Love"; They save through love, and in Their turn these lives are peculiarly close to the great Heart of Love of the solar Logos. These great redeeming Angels, Who are the Sons of Men on their own true plane,

the mental, are ever, therefore, pictured as taking the form of twelve-petalled lotuses_ this symbology linking them up with "the Son of Divine Love," the manifested solar system, which is said to be a cosmic twelve-petalled lotus, and with the logioic causal lotus, equally of a twelve-petalled nature.

We have, therefore, a direct stream of energy flowing through:

- a. The logioic twelve-petalled egoic lotus, cosmic mental plane.
- b. The solar twelve-petalled lotus.
- c. The planetary logioic heart, also a twelve-petalled lotus.
- d. The twelve-petalled human egoic lotus on the mental plane.
- e. The twelve-petalled heart centre in a human being.

Or, to word it otherwise, energy flows direct from:

- a. The solar Logos, via three great cosmic centres:

1. The central spiritual Sun.
2. The heart of the Sun.
3. The physical Sun.

- b. The heart centre of the planetary Logos, situated on the fourth cosmic etheric plane (our buddhic plane).

c. The egoic lotus of a human being on the mental plane, which is literally a correspondence to the "heart of the Sun." The monadic point is a reflection in the human system of the "central spiritual Sun."

d. The heart centre of a man on the etheric plane of the physical plane, which is in its turn a correspondence to the physical Sun.

Thus the tiny atom is linked with the great central Life of the solar system.

This fifth Hierarchy is equally, under the law, a distributor of energy to the fifth subplane of each plane in the system, only it must be borne in mind that, in the three worlds, it is the fifth subplane counting from above downwards, whilst in the worlds of superhuman evolution, it is the fifth counting from below upwards. This Hierarchy wields, as we know, the dual aspects of manas, one in the three worlds and one which makes itself felt in higher spheres.

It is necessary to bear in mind that all these groups are (even when termed "formless") the true forms of all that persists, for all are in the etheric body of the solar Logos or planetary Logos. This is a point requiring careful emphasis; students have for too long regarded the form as being the dense physical body, whereas to the psyientist the physical body is not the form, but a gross maya, or illusion, and the true form is the body of vitality. Therefore, these Hierarchies are the sum total of the vital lives and the substratum or the substance of all that is. We might regard the subject as follows:

a. The four superior groups are the Hierarchies expressing themselves through the three cosmic ethers, the second, third and fourth.

b. The two lowest groups are the lives which are found functioning as the involutory matter (organised and unorganised) of the logocic dense

physical body, the liquid and gaseous, with the living substance of the four higher subplanes of the systemic dense physical body.

c. The fifth Hierarchy has an interesting position as the "mediating" body between the higher four and those which are found on the lower three subplanes. There is a vital and significant correspondence to be found between the seven head centres and the seven groups of egos on the mental plane, and there is an psyientific analogy between the three head centres (pineal gland, pituitary body, and the alta major centre) and the expression of these seven groups of egos in the three worlds. This is a most esoteric fact, and all students meditating upon the laws of at-one-ment must take this analogy into consideration.

It is useful to remember the place of these Hierarchies in the scheme, and to realise that upon the sum total of these vital bodies is gradually gathered the dense manifestation which we regard as the evolutionary matter. The forms are built (from the form of all atoms to the body of the ego, from the form of a flower to the vast planetary or solar lotus) because the Hierarchies exist as the aggregate of germ lives, giving the impulse, providing the model, and procuring, through their very existence, the entire raison d'être of all that is seen on all planes.

Hierarchies VI and VII. These sixth and seventh Hierarchies which provide the substance forms of the three worlds have a vital use and a most interesting place. From the logoc standpoint, they are not regarded as providing principles, but from the standpoint of man they do provide him with His lowest principles. They hold the same relation to the Logos as the dense physical body does to man, and all that concerns the evolution of man must (in this particular place) be studied as going on within the physical, logoc vehicle. They deal with the display of physical energy; with the working out in the physical vehicle of all divine purposes, and with the physical organisation of a certain great cosmic Life.

Particularly is this so when we view the two Hierarchies under consideration. They are the lowest residue of the previous system, and the energy of that matter (liquid, gaseous and dense) which the vibration of the logoc permanent atom (on the plane adi) attracts to itself in the building of the divine form. For purposes of clarification and of generalisation, it might be noted that the seventh Hierarchy is the life or energy found at the heart of every atom, its positive aspect, and the sixth Hierarchy is the life of the forms of all the etheric bodies of every tangible object. The function of this Hierarchy is well described in the words of the *Old Commentary*.

"The devas hear the word go forth. They sacrifice themselves and out of their own substance they build the form desired. They draw life and the material from themselves, and yield themselves to the divine impulse."

NOTE: It is not revealed through which signs of the zodiac the first or twelfth Creative Hierarchy pours forth its energy.

Before continuing with the analysis of the tabulations and showing the inter-relations existing in this particular zodiacal cycle between the twelve signs of the zodiac and the twelve planets, there are certain things which we would like to point out here in connection with these zodiacal constellations. They are in the nature of generalisations, but the specific and the particular can be deduced from them.

First of all, we would point out that the twelve planets, governing the twelve houses, concern primarily the physical plane expression of the man; they affect potently the personality aspect; their influence, plus inherited karmic conditions, produces those environing states and those circumstances which give opportunity for the development and eventually the control of the form side of life.

Secondly, the twelve constellations are concerned primarily with the stimulation of the soul within the form, producing subjective activity which, in its turn, causes changes in the outer expression, through the fusion of the energy of the constellation with the energy of the planets. The effect produced falls into two stages:

1. The first stage wherein the sun sign dominates the man and he/she is gradually fitted to respond to the soul. His latent possibilities for this life are unfolded. The effect of the sun sign is sometimes called "the potency of the Sun of Probability."

2. The second stage wherein there is increasing response to the energies, concealed by the rising sign. They evoke the unexpected and produce the hastening of the evolutionary process and the unfoldment of the inner life. The rising sign is termed in the language of esotericism "the Sun of Possibility."

Through the effect of the energy flowing from the zodiacal signs the man is prepared for the "crisis of orientation" wherein he slowly and gradually

reverses his mode of progress upon the wheel of life and begins consciously to travel back to his source. He then goes from Aries to Pisces, via Taurus, Scorpio and Capricorn, instead of moving from Aries to Taurus via Sagittarius, Leo and Cancer. The triplicity of constellations mentioned in these two great routes around the zodiac have a definite and momentous effect and are called "paramount signs of influence." During this process the mental principle, the discriminating mind, is developed and in this specific connection (not in a general connection) the emphasis is laid upon the influence of Aries, Gemini and Libra. Under that influence the man learns to overcome desire through experiment with and experience of every kind of desire and selfish impulse. Thus gradually, and with infinite pain, the human soul learns to function first as a member of the human family, and, secondly as a spiritual entity, the divine soul.

You will see from the above that certain positions taken by the esoteric astrologer reverse the position of the orthodox astrology of today. The reason for this is that in the descent of ideas from the plane of ideas, they become "reversed" upon the astral plane and subject to the great illusion; astrology must eventually free itself from this reversal.

A right understanding of the effect of the various energies and forces will make it apparent that, when the conditioning planetary forces, the expanding energies of the sun sign and the driving energy of the rising sign are all being controlled and directed by the illumined spiritual man, you will then have a soul upon the very verge of liberation.

Eventually the energies of the twelve constellations and_ at a final stage of experience and development_ of the three great constellations which condition the solar Logos are blended with the innate energies of the seven rays or of the seven planetary Logoi. This marks a point of perfection. These extraneous energies (We refer here to those of the major constellations) are relayed to the Earth via the seven sacred planets and the five non-sacred planets, and when there is the complete fusion of the related energies and, therefore, full expression, a great world period comes to an end. For a long time during this cycle of reincarnations and periods of manifestation, the human being is conditioned almost entirely

by the activity of the non-sacred planets. These, as you know, are five in number:

The Sun (veiling a planet)

The Moon (veiling a planet)

The Earth itself

Mars

Pluto

Man_ speaking symbolically_ is the "five-pointed star and, at the fiery points, the forces of the man pour out and upon each fiery point appears a centre of reception." This is of course pictorially expressed, but the meaning is clear. However, as man nears the Path of Discipleship the influence of the sacred planets becomes increasingly effective, until after the final and fifth initiation the non-sacred planets have no effect, though the INITIATE wields their energies potently as they pour into and through his vehicles of reception, of response and of expression, for all three activities and purposes must be noted.

The energies of the twelve constellations are blended with those of the twelve planets, but their power to evoke response, and to be consciously received, recognised and employed, is dependent entirely upon the type of response mechanism of the planetary Life and of the individual man. It has been rightly said that consciousness is dependent upon the vehicles of consciousness, upon their point of development and upon the ability of the individual to identify himself with the energies and impulses which are reaching him, and is not dependent only upon that which is already a recognised part or aspect of himself. It might be said that the higher response to the realities and qualities revealed and made possible by the impact of energy from the zodiacal signs is somewhat dependent upon the waning influence of the planets to hold down the consciousness aspect of the man. Ponder upon this, for it embodies a deep esoteric truth.

Thus, two potent streams of energy_ cosmic and systemic_ reach man via the conditioning planetary centres of force (the seven planetary schemes in the solar system and their corresponding seven centres in the planet on which we live) and pour into the symbolic "twelve houses" through their medium. It is for this reason that our solar system is spoken of as one of "intrinsic duality" (love-wisdom) and that the major task of man is the "regulation of the pairs of opposites." The theme of duality, therefore, runs through the whole story of man's development. Upon all the three planes of human unfoldment the reconciliation goes forward.

1. Upon the physical plane we find the merging of the dense and the etheric forces. This is consummated upon the Path of Purification.

2. Upon the astral plane there must come the resolution of the pairs of opposites. This is consummated upon the Path of Discipleship.

3. Upon the mental plane the Angel of the Presence and the Dweller on the Threshold are brought face to face. Their synthesis is brought about upon the Path of Initiation.

What is true of man in this connection is true also of humanity as a whole, of the planetary Logos of the Earth, as of all planetary Logoi, and of a solar Logos. The analogy between the fusion of the pairs of opposites, for instance, upon the physical plane can be seen in the conscious and directed fusion of the planetary forces with the energy of any specific planet or group of planets. The analogy, involving discrimination to regulate and offset the force of the pairs of opposites upon the astral plane, can be seen when the energies of the sun sign and of the planets are perfectly directed and adjusted. The analogy can also be carried forward onto the mental plane and when the energies of the sun sign and the rising sign are coherently blended and expressed (in the case of both

the individual or a planetary Life) there comes a point of crisis wherein the soul and the personality are brought face to face. The Angel of the Presence, distributing solar fire and holding focussed electric fire, and the Dweller on the Threshold, expressing and utilising fire by friction, know each other "with intimate psyientific knowledge." The door then stands open wide through which the life and light of the three major constellations can_ after the third initiation_ be psyientificly available to the INITIATE, be he/she a liberated human being or a planetary Logos.

When astrologers understand the true significance of the constellation Gemini, the Twins, and the dual forces which pour through this sign (the "forces in conflict" as they are sometimes called or "the quarrelling brothers") and beat upon our planetary life, then the true method of resolving the dualities will be known.

It is interesting to note also that seven of the symbols which express the twelve signs of the zodiac are dual in their nature, and duality can be inferred from them.

1. The two horns of the Ram in Aries.
2. The two horns of the Bull in Taurus.
3. The figures of the Twins in Gemini (two lines).
4. The two claws of the Crab in Cancer.
5. The two scales of the Balance in Libra.
6. The two Parallel Lines of force in Aquarius.
7. The two Fishes in Pisces.

These seven constellations are, therefore, closely related to six of the seven sacred planets and to one non-sacred planet. There are two signs which are simple figures and have no significance of duality. They are

8. The symbol for Leo, which is simply the Lion's tail.

9. The arrow in the symbol depicting Sagittarius.

They embody the idea of isolated separation and one-pointed desire. Two signs are definitely triple in construction and this has a clear meaning to the esotericist.

10. Virgo is a triple sign.

11. Scorpio is also a triple sign, closely resembling the symbol of Virgo.

These two signs are crucial in the experience of the human being, indicating as they do the function of the triple form and the liberation of the man imprisoned in the form, through the tests in Scorpio wherein he proves to himself and to the world the reality of that which Virgo has veiled or hidden.

12. The symbol for the sign Capricorn is most mysterious. It conceals the mystery of the Crocodiles, or Makara. It is constructed in an inaccurate and definitely misleading manner and should be regarded as a mystery and therefore not to be defined.

These signs and their relationship to the sacred and non-sacred planets will be considered later.

To sum up: Man will, therefore, have to be studied as a threefold entity, a composite individual, expressing (in the three worlds):

- a. The spiritual soul, reflecting the Monad.
- b. The human soul, reflecting the divine soul.
- c. The form nature, which should be the revealer of the two higher.

Three Creative Hierarchies condition the man in incarnation, the 4th (or 9th) the 5th (or 10th) and the 6th. These, in collaboration, create man and, at the same time, constitute the field of his expression. Man is consequently a blend of electric fire, being a divine Flame, and becomes eventually responsive to the three major controlling influences; he is also solar fire, being a solar Angel in manifestation. He then becomes increasingly responsive to the influences of the twelve constellations. He is likewise fire by friction and comes under the influence of the planets. The tabulation below may make this somewhat clearer:

I. Electric Fire._ Path of Initiation_ 4th Hierarchy; full soul expression; monadic life.

GOAL: Identification with the Monad. Produces responsiveness to the three constellations.

II. Solar Fire._ Path of Discipleship_ 5th Hierarchy; full life experience; soul life.

GOAL: Identification with the Soul. Produces responsiveness to the twelve zodiacal constellations.

III. Fire by Friction._ Path of Evolution_ 6th Hierarchy; life experiment; human life.

GOAL: Identification with the Personality. Produces responsiveness to the planetary influences.

3. The Great Wheel and Spiritual Unfoldment.

Before we give you the remaining part of the chart which deals with the constellations as conductors of cosmic energies or as transmitters of their own energy, we would like to remark that much that we shall say will be based upon:

1. The wheel of life and the path of man, the human being, as he/she passes through the signs according to the mode recognised by orthodox astrology. He, as well as the planets, apparently retrogrades through the signs and appears to pass through the constellations from Aries to Taurus. But this is all part of the Great Illusion.

2. The wheel of life and the path of man, the divine or spiritual soul, as he passes through the signs of the zodiac according to the mode studied by the esoteric astrologer. This is the Path of Reality as the other is the Path of Illusion. This carries the disciple around the path from commencement in Aries to consummation in Pisces.

The present method is based upon the temporary truth that ordinary man is subject to the illusory nature of manifestation and "as he thinks, so is he." When, however, he/she becomes Hercules, the Sun God (or solar Angel), he/she begins to reverse the process (again only apparently) and a definite reorientation takes place. The Teachers on the inner side, therefore, study the horoscope only in its relation to the following three entities:

1. The horoscope of the planet itself as the expression of the life of the planetary Logos. This involves the studying of the horoscope of the spirit of the planet as well as of the informing Life and their joint relationship and interplay. The spirit of the Earth is to the planetary Logos of the Earth, for instance, what the personality (or form nature) is to the soul of man. The two horoscopes are superimposed and the "planetary pattern" then emerges.

2. The horoscope of the human family, of the fourth kingdom in nature, regarding it as an entity, which it essentially is. This is in reality the study of two horoscopes, as in the above case;

- the horoscope of the kingdom of souls, of the divine sons of God upon the mental plane, and
- the study of the entity which is the coherent life of the form side of the fourth kingdom in nature.

This is again done by superimposing the two charts. These charts are drawn on a large scale and on a transparent material of which humanity knows nothing. Upon these charts are noted the pattern which emerges when "soul and personality are brought together" and present conditions, possible developments and relationships, and the immediate future objective appear with clarity.

3. The horoscopes of disciples. The Masters do not study the charts of ordinary undeveloped man. There is no profit in so doing. This involves again the study of the two horoscopes of the disciple under inspection_ one of the soul and the other of the personality. Again the process of superimposition is utilised. In one horoscope, the new orientation and the embryonic reorganised inner life will be noted and studied, and in the other the outer life and its conformity or non-conformity to inner conditions will be the subject of attention. Thus the life pattern will emerge, possibilities will be indicated, problems will disappear, and the immediate next step will clearly show forth.

It thus becomes apparent again to what an extent the "principle of duality" enters into everything. It is a shifting dualism, according to where the emphasis may be placed, but this dualism is present until the last and final initiation_ present in the later stages of the evolutionary process, in the adjustment of form relations but not present in the consciousness of the disciple of advanced degree. That is the major point to be grasped.

A third point must here be made, following upon the two earlier emphasised. A great part of our study will be occupied with the relation of the six constellations in the upper half of the zodiacal wheel to the six which are found in the lower half; we shall consider the energy which is a human being (note that phrasing) as it travels clockwise from Aries to Taurus and then_ reversing the process_ travels from Aries to Pisces. We will consider the dualities provided by one of these constellations and its opposite; we will study, therefore, the great qualities provided by a constellation and its opposite sign. We will take up these points in the following manner:

1. From the standpoint of commencement in Aries until the man_ through many turnings of the wheel of life_ reaches the point of reversal and reorientation. The man progresses from the point where, in Cancer, he forms a part of the mass with the mass consciousness, inchoate and unfocussed, and with no recognition of objective (except the satisfaction of instinctual desire) until in Scorpio he becomes the triumphant disciple, having found himself in Leo. Then comes the Crisis of Reorientation which may take a long time and constitute an interlude of many lives of struggle.

2. From the standpoint of the man upon the probationary path, seeking the light, struggling through the signs (as the *Old Commentary* expresses it when considering this point):

"He turns from right to left, and then again from left to right. He revolves in giddy fashion upon an axis of desire. He knows not where to go or what to do. The sky turns black."

At this point, the sign Gemini begins potently to play its part in the life of the disciples, with Sagittarius gradually "piercing the heart with his arrows, and then upon the flight of the arrow, the man reaches Capricorn." Then comes the Crisis of Renunciation.

3. From the standpoint of the pledged disciple and INITIATE who traverses again the Path of the Sun and finds that that which he has discovered himself to be in Leo finds its crown in Aquarius. The separative individual consciousness becomes the group consciousness in Aquarius, and he begins to comprehend the significance of that basic combination of signs, that "triangle in the consciousness" of humanity:

Cancer	Leo	Aquarius.
Mass awareness	Individual awareness	Group awareness.
Instinctual consciousness	Intelligent consciousness	Intuitive consciousness.

Then, from the standpoint of achievement in Capricorn, he works for several lives around the zodiacal path, descending into the sea of the mass consciousness to become what is called in the ancient books "the Crab, who clears the ocean of matter which flows around the soul of man," and eventually to become a functioning world saviour in Pisces. He descends into the world of men to save mankind and to further the plan. He is then "the fish who swims free in the ocean of matter."

The INITIATE has always to express, in each sign of the zodiac,

- the consummation and the spiritual fruit of earlier life experience, world experiment and soul achievement.
- Selfishness has ever to be translated into living active service, and
- desire has to demonstrate its transmutation in the purity of spiritual aspiration for identification with the will of God.

There are one or two points which must be dealt with in order to enable you to study with certain definite ideas clearly formulated in your minds.

We have hinted at them in some of our earlier books but it will be of service to refer to them again and to expand the ideas somewhat. We would have you carry them in your minds as you read and study.

We have frequently referred to the fact that the entire science of astrology is based upon a non-existent condition. It has no basis in material fact and yet is eternally based on truth. The zodiac is, as you well know, the imaginary path of the Sun in the heavens. It is therefore largely an illusion, from the exoteric point of view. But at the same time the constellations exist, and the streams of energy which pass and repass, intermingle and interlock throughout the body of space are by no means illusions but definitely express eternal relationships. It is the misuse of the various energies which has created the illusion. This illusory path is consequently as much a reality to humanity today as are the personality illusions of any individual. These illusions are due to the polarisation of the individual upon the astral plane.

It is interesting also to note in this connection that_ due to the precession of the equinoxes_ a fourth type of force is brought to bear upon the planet and man, but one which is seldom recognised and given due place in the horoscope. The month and the sign, or the place of the Sun in the heavens, do not really coincide. When we state, for instance, that the Sun is "in Aries" it conveys an esoteric truth but not an exoteric fact. The Sun was in Aries at the beginning of this great cycle, but it is not in exactly the same position today when it is "found" in that sign.

Also it should be remembered that as it is necessary to know the moment of birth and the place of birth in casting the horoscope of the individual, so in order to have a perfectly correct understanding and accurate deductions in connection with the constellation, the planets and our Earth there should be a fixed time from which to reckon. That fixed time is as yet unknown in exoteric astrology, though the Hierarchy possesses the needed information and it will be made available when the right time comes. It is the knowledge of this inner information which constitutes the basis of the statements which we have made or will make which will seem revolutionary to the orthodox investigator. There has to be a constant

rectification of the earlier conclusions of humanity and of this the outstanding instance is the statement in the Bible that the prime date of creation is 4004 B.C. This is recognised as an error by modern science but is still believed by many.

We earlier gave a hint upon which definite astrological computation could be based when we gave the time of the "Great Approach" of the Hierarchy to our planetary manifestation when individualisation took place and the fourth kingdom in nature appeared. We placed that stupendous event as happening 21,688,345 years ago. At that time the Sun was in Leo. The process then INITIATED upon the physical plane and producing outer physical events took approximately 5,000 years to mature and the Sun was in Gemini when the final crisis of individualisation took place and the door was then closed upon the animal kingdom.

It has been stated that Sagittarius governs human evolution, as the Sun was in that sign when the Hierarchy began its Approach in order to stimulate the forms of life upon our planet. Sagittarius, however, governed the period of the subjective approach.

The Sun was in Leo when physical plane individualisation took place as a result of the applied stimulation.

The Sun was in Gemini when this Approach was consummated by the founding of the Hierarchy upon the Earth. This is one of the great secrets which the Masonic Rituals typify, for the symbol of the sign, Gemini, is the source of the concept of the two pillars, so familiar to Masons. It might therefore be stated that, symbolically speaking,

1. Leo governs the E\ A\ degree.
2. Gemini governs the F\ C\ degree.

3. Sagittarius governs the degree of M\ M\ up to the episode of the raising of the Master, and that Capricorn governs the final part of the ceremony and the H\ R\ A

It is always confusing to the beginner who has not yet a developed and trained intuition to reconcile the seeming discrepancies and apparent contradictions which appear in the teaching of the Ageless Wisdom. This same difficulty will be met with in the science of astrology and some reference to the matter is in order at this point. We would remind you of the psyientific truism which states that interpretation and right understanding are based upon the stage of the development of the individual. [---] remarked in [---] that for some people the highest principle of which they can be consciously aware might be a very low one for another person. The constellations and the planets which govern them may, and do, have one effect upon the mass and another upon the average individual man, and still a third effect upon the disciple or the INITIATE. As the various energies and forces circulate throughout the etheric body of our solar system, their reception and effect will depend upon the state of the planetary centres and upon the point of unfoldment of the centres in individual man. That is why the various charts and tabulations can differ so widely and different planets can appear as ruling the constellations. There seems to be no fixed rule and the student gets bewildered. Orthodox astrology posits one set of planetary rulers, and they are correct as far as the mass of humanity is concerned. But the disciple, who lives above the diaphragm, responds to another combination and it is with these that we shall principally deal. That is why the three charts here given do not appear to coincide. They are drawn up to express the situation in regard to three groups:

1. The mass of people who conform to orthodox and recognised astrological conclusions.

2. Disciples and advanced individuals, conforming to the conclusions of esoteric astrology.

3. The Creative Hierarchies, giving the interim situation in this world cycle.

TABULATION V. THE UNORTHODOX ASTROLOGICAL RELATIONSHIP

CONSTELLATIONS AND PLANETARY RULERS IN CONNECTION WITH DISCIPLES AND INITIATES

NOTE: In charts connected with the PATH, progress is from Aries to Pisces through Taurus, etc.

NOTE: In connection with disciples and the zodiacal signs, *Gemini* and *Libra* are two constellations which_ through their rulers_ express 5th and 7th ray energy. For some psyientific reason, they remain unrelated to any other of the signs.

The relation between the other constellations through the planets, as expressing the rays, is as follows:

1. *Taurus and Pisces*, through VULCAN and Pluto, are related to *Ray 1*. Transmutation of desire into sacrifice and of the individual will into the divine will.

The World Saviour

2. *Leo and Aquarius*, through the Sun and Jupiter, are related to *Ray 2*. Development of the individual consciousness into world consciousness. Thus a man becomes a world server.

The World Server

3. *Sagittarius and Capricorn*, through the Earth and Saturn, are related to *Ray 3*. The one-pointed disciple becomes the INITIATE.

The INITIATE

4. *Aries and Virgo*, through Mercury and the Moon, are related to *Ray 4*. Harmonising the cosmos and the individual through conflict, producing unity and beauty. The birth pangs of the second birth.

The Cosmic and Individual Christ

5. Cancer and Scorpio, through Neptune and Mars, are related to Ray 6. Transformation of the mass consciousness into the inclusive consciousness of the disciple.

The Triumphant Disciple

We would call attention to the fact that in Tabulation IV, the relationship is between the planets which rule, and in Tabulation V the emphasis is laid upon the conditioning ray.

- e. Ray 6_ Cancer and Sagittarius, through Neptune and Mars.

In view of all the above, and starting with the basic fact of the Great Illusion it should be remembered that the accuracy of astrological prediction and interpretation will be based upon three factors:

1. The potency of the thoughtforms which have been built up in connection with the twelve signs. These thoughtforms were originally constructed or anchored upon the mental plane by the Hierarchy in Atlantean days and they have steadily gained in power ever since. They serve as focal points for certain forces and enable the individual, for instance, to be in touch with great reservoirs of energy which then definitely condition him.

2. The intuition of the astrologer. The casting of the horoscope serves to put the astrologer en rapport with the individual, but this is of small service to either party unless the intuition and sensitivity of the astrologer is actively present.

3. The capacity of the astrologer in any specific period to respond to the changes which are all the time taking place, such as the gradual shifting and changing brought about by the precession of the equinoxes, or the slow shift of the pole of the planet. To this should be added that_ as man evolves_ the mechanism of response or the vehicles of consciousness likewise steadily improve. His reactions, therefore, to the planetary influence and to the energy of the various constellations change with equal steadiness and allowance must be made for this. It is consequently essential that the modern astrologer begin to study the point in evolution of the subject, *prior* to casting his horoscope. He must ascertain his approximate place upon the path of evolution. To this end, the study of the rays is most necessary through an investigation as to quality and characteristics and life objectives.

Astrologers will eventually be able to cast the horoscope of the soul, which is sensitive to different combinations of forces to those controlling the personality life. The disciple and the INITIATE respond distinctively to the incoming influences and their response differs from that of the undeveloped man or the self-centred person. This will have to be recognised. Those who "live below the diaphragm" and who react to the incoming energies through the medium of the lower centres will have a very different type of chart to that of the disciple and INITIATE. It will require a different mode of interpretation. We have referred to this before and would remind you of some of the points which we made.

1. Disciples upon the Path of Discipleship are strongly influenced by *Mercury* and *Saturn*_ one bringing illumination and the other offering opportunity.

2. At the various initiations, the influence of the planets affects the candidate in a totally different manner than earlier. Cyclically the energies from the constellations pour through the planetary centres.
 - a. At the first initiation, the disciple has to contend with the crystallising and destroying forces of *Vulcan* and *Pluto*. The influence of Vulcan reaches to the very depths of his/her nature, whilst Pluto drags to the surface and destroys all that hinders in these lower regions.

 - b. At the second initiation, the candidate comes under the influence of three planets_ *Neptune*, *Venus* and *Jupiter*. The three centres_ solar plexus, heart and throat_ are actively involved.

c. At the third initiation, *the Moon* (veiling a hidden planet) and *Mars* bring about a fearful conflict, but at the end the man is released from personality control.

d. At the fourth initiation, *Mercury* and *Saturn* again bring about great changes and unique revelation, but their effect is very different to the earlier experience.

e. At the fifth and final initiation, *Uranus* and *Jupiter* appear and produce a "beneficent organisation" of the totality of energies found in the INITIATE'S equipment. When this reorganisation is complete, the INITIATE can then "escape from off the wheel and then can truly live."

All this time the energy of the sun (veiling a sacred planet, hitherto unknown) is steadily and persistently reaching the man via the solar angel.

The Nature of Esoteric Astrology INTRODUCTORY REMARKS

It will be apparent to you after studying the foregoing that one of the results which should emerge under the impression of this new approach to astrological diagnosis (as far as the individual is concerned) will be the more correct casting of the horoscope of advanced human beings_ disciples and INITIATES. This has not hitherto been accurately possible. It will only come about, however, if there is wise and right experiment and investigation.

We have posited two sets of rulers for two types of people:

1. The orthodox and generally accepted series of planetary rulers for the undeveloped and average man.
2. A new combination of rulers and constellations for those upon the Path.

It will be necessary to remember nevertheless that there are an infinite number of permutations possible, of complexities and relationships, due to the vast number of possible combinations existing in the path of life of the individual and dependent upon his stage of evolutionary unfoldment. These might be divided into three groups through a broad, but necessarily inadequate, generalisation:

1. Average and undeveloped man, living below the diaphragm and with the emphasis of the incoming energies and forces focussed either in the solar plexus or in the sacral centre.
2. A large number of people who are in an interim stage, with the energies and forces focussed mainly in the lower centre but at the same time playing quite frequently through the throat centre and evoking a faint response from the heart and the ajna centres.
3. People upon one or other of the final stages of the Path, with the emphasis passing rapidly away from the lower centres into the higher triad and with the highest head centre in process of awakening. These people also fall into two major groups:
 - a. Those who are using the solar plexus centre as a vast clearing house for the incoming energies and who are beginning to work through the throat and the heart centres, with the goal of completely awakening the ajna centre.

b. Those who are using all these centres, but in whom the heart centre is fully awakened and the triangle of force in the head (from the ajna centre to the head centre and from the head centre to the centre found in the medulla oblongata) is beginning to function.

When these centres are all awakening, their simplest combinations are the following triangles. The Science of Triangles underlies all astrological deduction as well as the centres in the human body. This you know, but the four triplicities of orthodox astrology are only the rudiments of this true science, which lies behind the orthodox interpretations. copy

II. | 2. Heart Centre.

Unfortunately the organising principle is not as simple as the above tabulation would make it appear, for the emphasis, the focus and the mode of arranging and of vitalisation, and the appearance of these

esoteric triangles vary with the ray type. This Science of Triangles of Energy underlies the new esoteric science both in astrology and in the science of laya-yoga or the science of the centres. Both this ancient yoga and the still more ancient astrological science have now to be studied upon a higher turn of the spiral. Up till the present time, the teaching about the centres has been inherited from Atlantean times and couched in the old forms and formulas which are basically unsuited to our present greatly advanced stage of development. The same can be said of orthodox or exoteric astrology. Both these sciences must be reoriented and rearranged, and astrology must be based upon a deeper understanding of the relation of the planets_ sacred and non-sacred_ to the centres and to certain prominent "cycles of polarisation" emerging as the fore-ordained results of "periods of crisis." This last sentence embodies a basic and important statement of truth.

1. Centres and Triangles of Force

There are, as you well know, five non-sacred planets, and seven which are regarded as sacred. These twelve planetary lives (with their own cycles, points of crisis and moments of polarisation) are closely related to the seven centres. The five centres up the spine are related to the five non-sacred planets, but in unevolved or average man, are focussed almost entirely upon the astral plane and in the astral body. It should be noted that:

1. Two of the non-sacred planets (the Earth itself and the Moon) are connected with two centres which in the highly evolved man are not of dominating importance:

a. The spleen receiving pranic emanations from the planet on which we live and concerned with the etheric and physical bodies and their physical relation.

b. A centre in the chest related to the thymus gland. This centre becomes inactive in the advanced man but has a connection with the vagus nerve, prior to the awakening of the heart centre.

2. Two of the other non-sacred planets_ Mars and Pluto_ function in connection with the sacral centre (Mars) and the solar plexus (Pluto). This latter planet becomes active in the life of the man who is "becoming alive in the higher sense, his lower nature passes into the smoke and darkness of Pluto, who governs the lesser burning ground, in order that the man may live in truth in the higher land of light."

3. The Sun (standing here for VULCAN, which is a sacred planet) governs a centre in the front of the throat which is related to the para-thyroids and not to the thyroid gland, which is related to the throat centre. This centre in the front of the throat falls into disuse as the creative period of throat activity begins. It acts as a "mediator" between the higher and the lower creative organs (between the sacral and the throat centres) and leads eventually to that creative activity which is consciously that of the functioning soul. VULCAN was one of the first creative workers among men. He was also related to "Cain who killed his brother." The symbolism underlying these ancient myths will be easily interpreted by the intuitive student.

Some of the tasks which we propose to undertake in this section of our Treatise on the Seven Rays are as follows:

1. Consider why five of the seven rays express themselves through two sets of planets_ sacred and non-sacred_ and also which centres these two groups of rays govern. Thus we shall relate:

a. The seven centres in man's etheric body.

b. The seven centres of the fourth Creative Hierarchy of which the seven races are the expression.

c. The seven planetary centres.

d. The seven and the five planets which are the centres of energy in the solar system, responsive to the energy of the twelve zodiacal constellations.

These planetary centres will be studied from two angles:

a. From the orthodox angle.

b. From the angle of discipleship and initiation.

2. Consider the energies of the three major constellations as they each pour through three of the zodiacal constellations, thus forming great interlocking triangles of force. Thus nine of the zodiacal constellations are involved, and these in their turn fuse and blend their energies into three major streams of force upon the Path of Initiation. These three streams of force pour through:

a. Leo, Capricorn and Pisces.

to

b. Saturn, Mercury and Uranus (the Moon).

to

c. The head, ajna and heart centres.

to

d. The throat, the solar plexus and the base of the spine.

It should be remembered that the sacral centre and the spleen are primarily connected with the planetary emanation of the Earth itself.

3. Consider the three great cosmic Crosses:

<i>The Cardinal Cross</i>	<i>The Fixed Cross</i>	<i>The Mutable Cross</i>
a. Initiation	Discipleship	Evolution.
b. The Planetary Logos	Humanity	Kingdoms in Nature.
c. Cosmic Initiation	Solar Initiation	Planetary Initiation.
d. Spirit	Soul	Body.
e. Life	Consciousness	Form.
f. Monad	Ego	Personality.
g. Three Initiations	Two Initiations	Ordinary man.
(INITIATES)	(Disciples)	

and the relation of these three Crosses to the twelve planets and the general sweep of the soul in incarnation.

4. Elaborate the subject of the interplay between the three groups of ruling planets as given in Tabulation VI. These, in the totality of their effects, are the agencies through which the purposes of God are wrought out.

Before proceeding with the more technical aspects of our subject, we would like to elaborate this theme of the zodiac, its story and symbolism from the more philosophical and spiritual angle, giving you the subjective picture of man's progress as he passes on "the sweep of the sun along the path of life." This is a technical phrase and refers to the activity of a sun, a planet, a hierarchy or a man, after there has been a "moment of crisis," resulting in a "period of polarisation," leading inevitably to a fresh surge and sweep onwards. These three words_ crisis, polarisation and sweep_ are the basis of cyclic law and govern the evolutionary process. From the point of view of humanity, the passage of the Sun around the zodiac is apparently a slow and laborious process, taking approximately (on the plane of time) 25,000 years. From the angle of the inner vision, it is a sweep around the Path of Life, taking only a moment of time and "obliterating past, present and future in the radiant glory of the work accomplished."

2. The Crosses and the Signs

We will follow man from sign to sign as he_ in travail and pain_ forges the equipment and develops painfully the mechanism which will enable him to arrive at a major moment of crisis in his cyclic life wherein he will begin to free himself from the *path of the great illusion* along which he/she has travelled for aeons from Aries to Taurus, via Pisces and_ reversing himself_ will begin to travel the *path of light* from Aries to Pisces, via Taurus. This changing experience is expressed for us most beautifully in the sixth section of the *Old Commentary*.

"The Cross of many changes (the Mutable Cross. ---) continues with its whirling, carrying crucified thereon the form of a man in whom is found the seed of all illusion.

But, from the Cross whereon he has been slain_ e'en though he knew it not_ the man climbs down and feels his way (with pain and many tears) on

to another Cross_ a Cross of blinding light, of fiery pain, of bitter woe, and yet the Cross of liberation. It is a stationary Cross, fixed in the Heavens, and guarded by the Angel.

Behind the Cross, another Cross appears, but that he/she may not reach (the Angel guards the way!) until the Bull has rent and torn the man, and then_ the light shines forth; until the Serpent dread has wrestled with the man and brought him to his knees, and then_ the lifting up into the light; until *the Lion* has been tamed, the secret of the Sphinx revealed, and then_ the revelation of the inner light; until the man has lifted up his water-pot and joined the ranks of those who are the *Water-bearers*, and then the flowing of the stream of life will fill his water-pot and drain the rancid pool and cleanse its source and thus reveal the hidden way which leads unto the innermost light, hid by the final Cross. Then, from the Cross of man, the INITIATE finds his way, passes the Angel and leaves behind the inner torn veil, mounts the major Cross and passes into day, the final *day*. The wheel for him stands still. The sun and stars, for him, fade out. A great light is seen and..."

The three crosses on Mount Golgotha were Biblical symbols of these three astrological crosses, the Common or Mutable Cross, the Fixed Cross and the Cardinal Cross.

We would ask you to remember that though we shall trace the progress of the man from sign to sign around the zodiacal way, yet there is not necessarily this ordered sequence of travel or the smooth passage from sign to sign as we may portray it. All souls come into incarnation in the sign Cancer. By this we mean that the very first human incarnation was always taken in this sign which has been recognised down the ages as "the doorway into life of those who must know death," just as the constellation Capricorn is ever regarded as another door and is called esoterically the "doorway into life of those who know not death." As the ages slip away, the man passes into and out of all the signs, the particular sign being determined by the nature of the personality ray which itself

changes, as you know, from life to life. In those signs he learns the needed lessons, broadens his horizon, integrates his personality, begins to sense the conditioning soul, and thus discovers his essential duality. When he is upon the Path of Discipleship (and here we include the Path of Initiation) psyientific rumour says that he then becomes conditioned by the tireless Watcher, the soul, and is subjected (during the final stages of the path) to exactly twelve incarnations, passing one in each of the twelve signs. In them he has to prove himself, attaining great moments of crisis in each of the constellations of the Fixed Cross in particular. From point to point, stage to stage, and finally Cross to Cross, he fights for his spiritual life, in all the twelve houses and all the twelve constellations, subjected to countless combinations of forces and energies_ ray, planetary, zodiacal and cosmic_ until he is "made anew," becomes the "new man," is sensitive to the entire range of spiritual vibrations in our solar system and has achieved that detachment which will enable him to escape from the wheel of rebirth. He has accomplished this by mounting the three Crosses_ the cross of the Personality or the changing form, the Cross of the Disciple or the eternal soul, and the Cross of the Spirit. This really means that he has passed through three momentous crises in his life cycle.

I. The Crisis of Incarnation The Mutable Cross

The Mounting of the WheelPersonality and form life

The Cycle of Rebirth in Form Experience

Manifestation of Manhood

II. The Crisis of Reorientation The Fixed Cross

The Changing to the 2nd Cross . . . The life of the soul

Preparation for the 2nd Birth Consciousness

Manifestation of Christhood

III. The Crisis of Initiation The Cardinal Cross

The Transfiguration The Life of the Spirit

Manifestation of Divinity

In our study of the interlocking system of energies, in so far as they affect and condition a human being, the theme of the Three Crosses is of profound and practical interest, especially as they provide those points of crisis wherein a man steps off the ordinary path of evolution and treads the path of discipleship or_ after the third initiation mounts a third Cross. It will underlie our thought and all that we have to say. A steady recollection of the twelve basic energies (five major and seven minor which are in reality, and apart from astral reversion due to the Great Illusion, seven major and five minor) will be of value. These work out into human expression via the Lords of the twelve signs and the twelve planetary Rulers. These twelve basic energies emanate from the seven stars of the Great Bear (transmitted through seven stars of the Little Bear); two of them come from Sirius and three from the Pleiades. This set-up (if we may use such an unorthodox term) will be the condition of the major solar sphere of influence at the end of the Great Age of Brahma, as it is esoterically called. In the "interim or interlude of evolution" (which is the inadequate translation of an psyientific phrase given to a world cycle in the Masters' Archives) these energies are stepped down into forces and are literally sixteen all told_ from the angle of manifestation, we would remind you_ and make literally: $7+7+2=16=7$. In these numbers the mystery of our evolutionary process lies hid. Always, however, the emphasis must be laid upon the Rays of Energy and Quality as they pour through the zodiacal constellations and the planets. The new astrology therefore is necessarily based upon an understanding of the rays. The following tabulation is fundamental in its implications in this connection and upon it all that we have to say will be based.

Seven stars of the Great Bear are the originating Sources of the seven rays of our solar system. The seven Rishis (as They are called) of the Great Bear express Themselves through the medium of the seven planetary Logoi Who are Their Representatives and to Whom They stand in the relation of prototype. The seven Planetary Spirits manifest through the medium of the seven sacred planets.

Each of these seven Rays, coming from the Great Bear, are transmitted into our solar system through the medium of three constellations and their ruling planets. The following tabulation makes this clear but must be interpreted only in terms of this present turn of the Great Zodiacal Wheel (25,000 years):

TABULATION VIII

It will be obvious to you how much correlating work and how much readjustment of ideas will be needed as the new astrology is worked out into practical usefulness and eventually substituted for that now holding sway. This new astrology really embodies five sciences:

1. The Science of the Rays.
2. The Science of Esoteric Interpretation which is carried out through
3. The Science of Triangles.
4. The Science of the Centres.
5. The Science of Destiny.

This latter science will be based upon the four previous ones and will constitute an interpretation of the future which will be founded on a correct understanding of the rays_ personal and egoic_ of the influence of the triangles_ zodiacal, planetary, racial and human. These latter triangles are arrived at by a study of the individual human centres. When all this has been ascertained and worked out in the new style of horoscope which will be later developed, then the Science of Destiny will be applied and the future indications discovered. Of this, the personal progressed horoscope is the embryonic seed.

Some indication of relative values can be gained by a consideration of the human triangles as given in [-----], which suggested the following:

"It would repay the student to contemplate the interesting succession of triangles that are to be found and the way in which they must be linked by the progression of the fire before that fire can perfectly vivify them, and thence pass on to other transmutations. We might enumerate some of these triangles, bearing always in mind that, according to the ray, so will proceed the geometric rising of the fire, and according to the ray, so will the points be touched in ordered sequence. Herein lies one of the secrets of initiation, and herein are found some of the dangers entailed in a too quick publication of information concerning the rays.

1. *The pranic triangle.*

- a. The shoulder centre.
- b. The centre near the diaphragm.
- c. The spleen.

2. *Man controlled from the astral plane.*

- a. The base of spine.
- b. The solar plexus.
- c. The heart.

3. *Man controlled from the mental plane.*

- a. The base of spine.
- b. The heart.
- c. The throat.

4. *Man partially controlled by the Ego, advanced man.*

- a. The heart.
- b. The throat.
- c. The head, i.e., the four lesser centres and their synthesis, the ajna centre.

5. *Spiritual man to the third Initiation.*

- a. The heart.
- b. The throat.
- c. The seven head centres.

6. *Spiritual man to the fifth Initiation.*

- a. The heart.
- b. The seven head centres.
- c. The two many-petalled lotuses.

All these different periods show different triangular radiations. We must not infer from this that when the fire is centred in one triangle it is not demonstrating in others. Once the fire has free passage along any triangle it flames continuously, but always there is one triangle more radiant and luminous than the others, and it is from these glowing triangles of light, issuing from wheels and vortices of fire, that the clairvoyant and the teachers of the race can appraise a man's position in the scheme of things, and judge of his attainment. At the culmination of life experience, and when man has reached his goal, each triangle is a radiant path of fire, and each centre a wheel of living fiery force rotating at terrific speed; the centre at this stage not only rotates in a specific direction, but literally turns upon itself, forming a living flaming iridescent globe of pure fire, and holding within it a certain geometrical shape, yet withal vibrating so rapidly that the eye can scarcely follow it. Above all, at the top of the head will be seen a fiery display that seems to put all the other centres into insignificance; from the heart of this many-petalled lotus issues a flame of fire with the basic hue of a man's ray. This flame mounts upward and seems to attract downward a sheet of electric light, which is the downflow from the spirit on the highest plane. This marks the blending of the fires and the deliverance of man from the trammels of matter."

[-----] (pp. 169-171)

At present, charts are set up on the basis of the personality condition or of the personality ray, if the astrologer is fortunate enough to know or to guess it accurately; if, however, the subject is an advanced person, then the chart will be frequently wrong as the planets which govern in the case of ordinary or undeveloped man have ceased to influence the spiritual man and the disciple. Average man is primarily conditioned in the events of his physical plane life by the position of the planets in the twelve houses and they are, in their turn, conditioned by certain karmic influences which the advanced man has overcome, or is overcoming. The horoscope will be cast eventually on the basis of the soul ray, and then the zodiacal signs which govern the activities and the influence of the present group of planetary Rulers will be considerably lessened. New planetary potencies (conveying zodiacal energies) will control and take precedence of the old ones, thus putting the man in touch with different forces. Finally the time will come when he will be sensitive to the whole range of vibrations; charts will then be set up which will be called "*charts of the crosses*" and not

simply indications of planetary influences in the twelve houses. We question whether there is any living astrologer capable of doing this as yet. These are the kind of charts by which the Masters gauge Their disciples and they are most interesting; we touched upon them somewhat earlier in this treatise. These "charts of the crosses" are the ones that are prepared prior to the third initiation, at which time the man begins his "approach" to the Cardinal Cross of the heavens. We would here remind you, e'en though it is a piece of useless information, that the fifth major initiation of our planet is the first cosmic initiation, just as the third initiation is the first systemic. The two first initiations are planetary in their implications. The above statement has deep and esoteric astrological significance.

"The TriFesta" and "the Nines" Movement

The NEW WORLD RELIGION

1919-2025 *1

^{1*} 1919-2025: Let us indicate the possibilities of such spiritual events intended to offer study to disciples and initiates at the close of this century [20TH] and the beginning of the next century, up until 2025 A.D., attempt to prophesy the nature of the coming worldwide Festivals and lay a foundation for future teaching around the year 2025. There will be three such major Festivals each year, concentrated in three consecutive months and leading, therefore, to a prolonged annual spiritual effort which will affect the remainder of the year. These will be:

A. TriFesta = APRIL, MAY and JUNE FULL MOONS

B. "The Nines" = JANUARY; FEBRUARY; MARCH (depends on April); JULY; AUGUST; SEPTEMBER; OCTOBER; NOVEMBER AND DECEMBER FULL MOONS.

TriFesta

1. The FESTIVAL OF EASTER. This is the Festival of the risen, living

CHRIST,

- the Teacher of all men and
- the Head of the Spiritual HIERARCHY.
- He is the Expression of the LOVE OF GOD.

On this day the spiritual HIERARCHY, which He guides and directs, will be recognised and the nature of God's love will be emphasised. This Festival is determined always by the date of the **FIRST FULL MOON OF SPRING** and is the great Western and Christian Festival.

2. The FESTIVAL of WESAK. This is the FESTIVAL of the BUDDHA, the spiritual Intermediary between the highest spiritual centre,

- SHANGRI-LHA, and
- the HIERARCHY. The BUDDHA is the expression of
- the wisdom of God,
- the Embodiment of Light and the Indicator of the
- divine purpose.

This will be fixed annually in relation to the **FULL MOON OF MAY**, as is at present the case. It is the great EASTERN Festival.

3. The FESTIVAL OF GOODWILL. This will be the Festival of the spirit of humanity_

- aspiring towards God,
- seeking conformity with the WILL of GOD and
- dedicated to the expression of right human relation.

This will be fixed annually in relation to the **FULL MOON OF JUNE**. It will be *a day whereon the spiritual and divine nature of mankind will be recognised.*

On this Festival for two thousand years

- The CHRIST has represented humanity and has stood before the HIERARCHY and in the sight of
- SHANGRI-LHA as the God-Man, the leader of His people and
- "the Eldest in a great family of brothers" (Romans VIII.29)

Each year at that time He has preached the last sermon of the BUDDHA, before the assembled HIERARCHY. This will, therefore, be a festival

- of deep invocation and appeal,
- of a basic aspiration towards fellowship,
- of human and spiritual unity, and
- will represent the effect in the human consciousness of the work of the BUDDHA and of the CHRIST.

These three Festivals are already being kept throughout the world, though they are not as yet related to each other and are a part of the unified spiritual Approach of humanity. The time is coming when all three Festivals will be kept throughout the world and by their means a great spiritual unity will be achieved and the effects of the Great Approach, so close to us at this time, will be stabilised by the united invocation of humanity throughout the planet.

“The NINES”

The remaining full moons will constitute lesser festivals but will be recognised to be also of vital importance. They will establish the divine attributes in the consciousness of man, just as the major festivals establish the three divine aspects. These aspects and qualities will be arrived at and determined by a close study of the nature of a particular constellation or constellations influencing those months. For instance, Capricorn will

- call attention to the FIRST INITIATION, THE BIRTH OF THE CHRIST IN THE CAVE OF THE HEART, and
- indicate the training needed to bring about that great

- spiritual event in the life of the individual man.

We give this one instance to you in order to indicate the possibilities for spiritual unfoldment that could be given through an understanding of these influences by expanding them into their larger undying relationships. The minor festivals will emphasise the interrelation of the Whole, thus lifting the divine presentation

- out of the individual and the personal,
- into that of the universal divine Purpose;
- the relationship of the Whole to the part and of the part
- to that Whole will be thereby fully expresses. Humanity will, therefore,
- invoke the spiritual power of the Kingdom of God, the HIERARCHY;
- the HIERARCHY will respond, and God's plans will then be worked out on earth.

The HIERARCHY, on a higher turn of the spiral will invoke the "Centre where the WILL of GOD is known," thus invoking the Purpose of God. **THUS WILL THE WILL OF GOD BE IMPLEMENTED BY LOVE AND MANIFESTED INTELLIGENTLY; FOR THIS MANKIND IS READY, AND FOR THIS THE EARTH WAITS.** [L8r, more on the NINES as Esoteric astrology.]

Thus, the TWELVE annual festivals will constitute a

- revelation of divinity. They will present a means of bringing about relationship, first of all,
 - during *three months*
 - with the *three great spiritual Centres*,
 - the *three expressions of the divine Trinity*.

Tri9's

Your major spiritual activity must now be turned into work at the time of the Full Moon. Each month spend your periods of inner recollection in getting ready for the work of the five or the three days of the Full Moon period:

1. The **WESAK FESTIVAL** (the Vaisakha Festival) @ the **MAY FULL MOON** is a ritual in which stands for the **Great Day of the Illuminated Buddha**. No cost is too great to pay in order to be of use to the **HIERARCHY** at the time of the **FULL MOON OF MAY**, the **WESAK FESTIVAL**; no price is too high in order to gain the spiritual illumination which can be possible, particularly at that time.
2. The **FESTIVAL of the RISEN CHRIST, EASTER Sunday**, @ the **APRIL FULL MOON**, stands for that inclusive, serve-the-servers/love-ye-one-another Brotherhood exemplified by Christ, whilst the
3. The **FESTIVAL of HUMANITY** @ the **FULL MOON of JUNE** stands for making its major annual approach to **God** under the guidance of **Christ**.
4. The other full moons in each month constitute lesser festivals in which certain spiritual qualities necessary for the expression of **Discipleship** and **Initiation** are considered and emphasised.

PREPARATION: TriFesta = 5 days

1. THE **TWO DAYS** OF PREPARATION AND INTROSPECTION.
2. THE **DAY** OF THE FULL MOON WITH ITS OPPORTUNITY TO TUNE IN WITH YOUR FELLOW DISCIPLES IN THE WORLD_ AKA SYNTHES EARTH ASHRAM_.
3. THE **TWO DAYS** OF ATTEMPT TO CAPITALISE ON THAT WHICH HAS BEEN SUBJECTIVELY GAINED-_ MAKING IT OBJECTIVE IN YOUR CONSCIOUSNESS.

The gain of this exercise, if successfully carried out, in the development of your inner sensitivity would be immeasurable and its usefulness to your fellow disciples would be greater than you know.

The next few months are intended to be (for all disciples in all Ashrams) a period of preparation for fuller service.

PREPARATION: The NINES = 3 days

1. THE *ONE DAY* OF PREPARATION AND INTROSPECTION.

2. THE *DAY* OF THE FULL MOON WITH ITS OPPORTUNITY TO TUNE IN WITH YOUR FELLOW DISCIPLES IN THE WORLD_ AKA SYNTHES EARTH ASHRAM_.

3. THE *ONE DAY* OF ATTEMPT TO CAPITALISE ON THAT WHICH HAS BEEN SUBJECTIVELY GAINED-_ MAKING IT OBJECTIVE IN YOUR CONSCIOUSNESS.

Thus, the TWELVE annual festivals will constitute a revelation of divinity. They will present a means of bringing about

- relationship, FIRST of all, during three months with
- the three great spiritual Centres,
- the three expressions of the divine Trinity.

The minor festivals will emphasise the *interrelation of the Whole*, thus lifting the divine presentation

- out of the individual and the personal,
- into that of the universal divine Purpose;
- the relationship of the Whole to the part and of the part to that Whole will be thereby fully expressed.
- Humanity will, therefore, invoke the spiritual power of the Kingdom of God, the HIERARCHY;
- the HIERARCHY will respond, and God's plans will then be worked out on earth.

- The HIERARCHY, on a higher turn of the spiral will invoke the "Centre where the WILL of GOD is known," thus invoking the Purpose of God.
- **THUS WILL THE WILL OF GOD BE IMPLEMENTED BY LOVE AND MANIFESTED INTELLIGENTLY; FOR THIS MANKIND IS READY, AND FOR THIS THE EARTH WAITS.** [L8r, still coming as promised, more on the NINES as Esoteric astrology.]

To sum up therefore: on the basis of the fundamental truth already recognised the **NEW WORLD RELIGION** will be built.

The great theme of the **NEW WORLD RELIGION** will be the *recognition of the many divine approaches and the continuity of revelation which each of them conveyed*; the task ahead of the spiritually minded people of the world today is to *prepare humanity for the imminent and (perhaps) the greatest of all the Approaches*. The method employed will be the scientific and intelligent use of *Invocation* and *Evocation* and the recognition of their tremendous potency.

RELIGION is the NAME GIVEN to:

- **THE INVOCATIVE APPEAL of HUMANITY and**
- **THE EVOCATIVE RESPONSE of the GREATER LIFE to that CRY.**

Man invokes divine Approach in various ways:

- by means of the inchoate, voiceless appeal or invocative cry of the masses and also
- by the planned, defined invocation of the spiritually oriented aspirants, the intelligently convinced worker, disciple and initiate_
- by all, in fact, who form the **NEW GROUP OF WORLD SERVERS**.

The **science of Invocation and Evocation** will take the place of what we now call "prayer" and "worship." Be not disturbed by the use of the word "**SCIENCE**." It is not the cold and heartless intellectual thing so oft depicted. It is in **REALITY** the **INTELLIGENT ORGANISATION**

- Of **SPIRITUAL ENERGY** and
- Of the **FORCES of LOVE**, and these, when **EFFECTIVE**,

- Will EVOKE the RESPONSE of SPIRITUAL BEINGS WHO can AGAIN WALK OPENLY AMONG MEN, and
- Thus ESTABLISH a CLOSE RELATION and a CONSTANT COMMUNICATION between HUMANITY and the SPIRITUAL HIERARCHY.

In order to clarify, it might be said that Invocation is of three kinds:

1. there is, as stated above, *the massed demand, unconsciously voiced, and the crying appeal, wrung from the hearts of men in all times of crisis such as the present.* This *invocative cry* rises ceaselessly from all men living in the midst of disaster; it is addressed to that power outside themselves which they feel *can* and *should come* to their help in their moment of extremity. This great and wordless *invocation* is rising everywhere today.

2. Then there is the *invocational spirit, evidenced by sincere men as they participate in the rites of their religion and take advantage of the opportunity of united worship and prayer to lay their demands for help before God.* This group, added to the mass of men, creates a huge body of *invocative* applicants and at this time, their *massed intent* is in great evidence and their *invocation* is rising to the Most High.

3. Then, lastly there are the trained disciples and aspirants of the world who use certain forms of words, certain carefully defined invocations and who_ as they do this_ focus the invocative cry and the invocative appeal of the other two groups, giving it right direction and power.

All these three groups are, consciously or unconsciously, swinging into activity at this time and their united effort guarantees a resultant evocation.

This new invocative work will be the keynote of the coming world religion and will fall into two parts.

1. There will be the invocative work of the masses of the people, everywhere, trained by the spiritually minded people of the world (working in the churches whenever possible under an enlightened clergy) **to**

- accept the fact of the approaching spiritual energies, focussed through CHRIST and His spiritual HIERARCHY, and
- trained also to voice their demand for LIGHT, LIBERATION and UNDERSTANDING.

2. There will also be the skilled work of **invocation** as practised by those who have trained their minds through right **meditation**, who know the potency of **formulas, mantrams and invocations** and who work consciously.

They will increasingly use certain great formulas of words which will later be given to the race, just as the Lord's Prayer was given by the CHRIST, and as the New Invocation has been given out for use at this time by the HIERARCHY.

This new religious **science** for which prayer, meditation and ritual have prepared humanity, will train its people to present at stated periods throughout the year_ the voiced demand of the people of the world

- for relationship with God and
- for a closer spiritual relation to each other.

This work, when rightly carried forward, will evoke response from the waiting HIERARCHY and from its Head, the CHRIST. Through this response, the **belief of the masses** will gradually be changed into the **conviction of the knowers**. In this way, the mass of men will be **transformed and spiritualised**, and the two great divine centres of energy or groups_ the HIERARCHY and HUMANITY itself_ will begin to work in complete at-one-ment and unity. ***Then the Kingdom of God will indeed and in truth be functioning on earth.***

It will be apparent to you that it is only possible to indicate the broad general outlines of the NEW WORLD RELIGION. The expansion of the human consciousness which will take place as a result of the coming Great Approach will enable humanity to grasp not only its relation to the

spiritual life of our planet, the "One in Whom we live and move and have our being," but will also give a glimpse of the relation of our planet to the circle of planetary lives, moving within the orbit of the Sun and the still greater circle of spiritual influences which contact our system as it pursues its orbit in the Heavens (the twelve constellations of the zodiac). Astronomical and astrological investigation has demonstrated this relationship and the influences exerted but there is still speculation and much foolish claiming and interpretation. Yet the churches have ever recognized this and the Bible has testified to it. "The stars in their courses fought against Sisera" (Judges V.20). "Who can withstand the sweet influences of the Pleiades?" (Job XXXVIII.31). Many other passages bear out this contention of the **Knowers**. Many church festivals are fixed by reference to the moon or a zodiacal constellation. Investigation will prove this to be the case and when the ritual of the **NEW WORLD RELIGION** is universally established, this will be one of the important factors considered.

The establishing of certain major **festivals** in relation to the Moon and in a lesser degree to the zodiac will bring about a strengthening of the spirit of invocation and the resultant inflow of evoked influences.

- The truth lying behind all invocation is based upon the power of thought, particularly in its telepathic nature, rapport and aspect.
- The unified, invocative thought of the masses and the focussed, directed thought of the **NEW GROUP OF WORLD SERVERS** constitute an outgoing stream of energy.
- This will reach telepathically those spiritual Beings Who are sensitive and responsive to such impacts. Their evoked response, sent out as spiritual energy, will in turn reach humanity after having been stepped down into thought energy and in that form will make its due impact upon the minds of men, convincing them and carrying inspiration and revelation.

Thus has it ever been in the history of the spiritual unfoldment of the world and the procedure followed in writing the world Scriptures.

Secondly, *the establishing of a certain uniformity in the world religious rituals will aid men everywhere to strengthen each other's work and enhance powerfully the thought currents directed to the waiting spiritual Lives.* At present, the Christian religion has its great festivals, the Buddhist keeps his different set spiritual events, and the Hindu has still another list of holy days. In the future world, when organised, all men of spiritual inclination and intention everywhere will keep the same holy days. *This will bring about a pooling of spiritual resources, and a united spiritual effort, plus a simultaneous spiritual invocation. The potency of this will be apparent.*

"Thus God dwells in all,
 From life's minute beginnings, up at last
 To man_ the consummation of this scheme
 Of being, the completion of this sphere
 Of life: whose attributes had here and there
 Been scattered o'er the visible world before,
 Asking to be combined, dim fragments meant
 To be united in some wondrous whole,
 Imperfect qualities throughout creation,
 Suggesting some one creature yet to make,
 Some point where all those scattered **rays** should meet
 Convergent in the faculties of man....

When all the race is perfected alike
 As man, that is; all tended to mankind
 And, man produced, all has its end thus far:
 But in completed man begins anew
 A tendency to God. Prognostics told
 Man's near approach; so in man's self arise
 August anticipations, symbols, types
 Of a dim splendour ever on before
 In that eternal circle life pursues.
 For men begin to pass their nature's bound
 And find new hopes and cares which fast supplant
 Their proper joys and griefs; they grow too great
 For narrow creeds of right and wrong, which fade
 Before the unmeasured thirst for good; while peace
 Rises within them ever more and more.
 Such men are even now upon the earth,
 Serene amid the half formed creatures round

_ Paracelsus by Robert Browning.

For some years now the spiritual HIERARCHY of our planet has been drawing nearer to humanity and its approach is responsible for the great concepts

- of freedom which are so close to the hearts of men everywhere.
The dream
- of brotherhood,
- of fellowship,
- of world cooperation and

- of a peace, based on **RIGHT HUMAN RELATIONS**, is becoming clearer in our minds. We are also visioning
- a new and vital world religion,
- a universal faith which will have its roots in the past, but
- which will make clear the new dawning beauty and the coming vital revelation.

Of one thing we can be sure, this approach will, in some way_ deeply spiritual, yet wholly factual_ prove the truth of the immanence of God.

1. The churches have emphasised and exploited the extra-territoriality of Deity and

2. have posited the presence of a God Who is

- creating,
- sustaining and
- creatively active, but at the same time *outside His Creation_ an inscrutable onlooker*. This type of transcendent Creator must be shown to be
- FALSE and this doctrine must be countered by the
- **MANIFESTATION OF GOD IN MAN, THE HOPE OF GLORY.**

It is this surely that the expected Approach will demonstrate; it will prove also the close relationship between God Transcendent and that in "Him we live and move and have our being," because, "having pervaded this entire Universe with a fragment of [Himself, He] remains."

GOD IS IMMANENT IN THE FORMS OF ALL CREATED THINGS; the glory which shall be revealed is the expression of that innate divinity

- in all its attributes and aspects,
- its qualities and powers,
- through the medium of humanity. On the fact
- of God and
- of man's relation to the divine, on the fact
- of immortality and
- of the continuity of divine revelation, and upon the fact
- of the constant emergence of MESSENGERS from the divine centre, the **NEW WORLD RELIGION** will be based.

To these facts must be added man's assured, instinctive knowledge

- of the existence of the Path to God and
- of his ability to tread it, when the evolutionary process has brought him/her to the point of a fresh orientation to divinity and
- to the acceptance of the fact of God Transcendent and of God Immanent within every form of life.

These are the foundational truths upon which the world religion of the future will rest. Its keynote will be **Divine Approach**. "Draw near to Him and He will draw near to you" (James IV.8) is the great injunction, emanating in new and clear tones from **CHRIST** and the spiritual **HIERARCHY** at this time.

- It is, in fact, the recognition by the part of its relationship to the Whole, plus a constantly growing demand for increased awareness of that relation;

- It draws forth the recognition of the Whole that the demand has been made.
- It is the impact of the vibration of humanity_ oriented specifically to the Great Life of which it feels itself a part_ upon that Life and the responsive impact of that "All-surrounding Love" upon the lesser vibration.
- It is only now that the impact of the human vibration can dimly be sensed in SHANGRI-LHA; hitherto its most potent activity has only reached the HIERARCHY.

Religion, the science of invocation and evocation as far as humanity is concerned, *is the approach (in the coming New Age) of a mentally polarised humanity.* In the past,

Religion has had an entirely emotional appeal. It concerned the relation of the individual to the world of reality, of the seeking aspirant to the sought-for divinity. Its technique was the process

- of fitting oneself for the revelation of that divinity,
- of achieving a perfection which would warrant that revelation, and
- of developing a sensitivity and a loving response to the ideal Man, summarised, for present day humanity, in the CHRIST.

CHRIST came to end the cycle of this emotional approach which had existed since Atlantean days; *He demonstrated in Himself the visioned perfection and then presented to humanity an example_ in full manifestation_ of every possibility latent in man up to that time.*

THE ACHIEVING OF THE PERFECTION OF THE CHRIST-CONSCIOUSNESS BECAME THE EMPHASISED GOAL OF HUMANITY.

Today, slowly, the concept of a world religion and the need for its emergence are widely desired and worked for. The fusion of faiths is now

a field for discussion. Workers in the field of religion will formulate the universal platform of the NEW WORLD RELIGION. It is a work of loving

- synthesis and will emphasise the
- unity and the
- fellowship of the spirit. This group is, in a pronounced sense, a channel for the activities of the
- CHRIST, the world Teacher. The platform of the NEW WORLD RELIGION will be
- built by many groups, working under the inspiration of the CHRIST.

N.B. [Note Bene / Note well] that the EASTERN FESTIVAL of WESAK (Vaisaka) and the Christian day of remembrance, GOOD FRIDAY, will fade out of the consciousness of humanity in due time; they are both festivals related to aspects of the first Ray of Power or Will. The abolition of the fear of death and the establishment of a close relation of the HIERARCHY with SHANGRI-LHA will render obsolete these ancient ceremonial rites.

3. Spiritual Effects of the Zodiacal Constellations.

We are now going to outline to you the spiritual effect of the passage of a soul around the wheel of experience. We will attempt to consider, in the case of each constellation, the general effect upon a soul_ undergoing the experience_ from the orthodox angle as he travels from Aries to Taurus, via Pisces, and then_ as the disciple, coming under other influences_ travels from Aries to Pisces, via Taurus. Thus the usual process is reversed and the man reorients himself and "faces the East," as it is esoterically called. He expresses then in the highest possible manner the qualities of his soul ray as, in the first case, he expressed the quality of the personality ray.

It is not possible for us to be more specific. We seek only to give certain spiritual implications and hints and to convey a general idea of the effect of the great illusion upon resultant conditions and, secondly, the result of the great tests which every disciple eventually undergoes as he/she reverses the wheel of life.

AAAAAAAAAAAA

TriFesta2 TAURUS, the BULL FULL GLOW NOTEBOOK

We now arrive at the second sign which_ after the reorientation preceding DISCIPLESHIP_ produces changes and opportunity for the disciple. We come also to the sign which is called "the sign of the major LIFE incentive," because TAURUS is the symbol of desire in all its phases. Whether the subjective man is impelled by desire, or the disciple is driven forth upon the path of return by the urge of ASPIRATION, or whether the INITIATE is controlled by the will to cooperate with the PLAN, he is, nevertheless, being responsive to the most potent manifestation of a little known and understood aspect of divinity, to which we give the inadequate name of the Will of GOD.

1. WILL,
2. POWER,
3. DESIRE,
4. ASPIRATION,
5. AMBITION,
6. MOTIVE,
7. PURPOSE,
8. IMPULSE,
9. INCENTIVE,
10. PLAN_

all these are words which attempt to express one of the major underlying attributes and fundamental causes (man scarcely knows which) of manifestation, of the evolutionary processes and of the WILL-to-BE or the WILL-TO-LIVE. The great triplicity of DESIRE_ ASPIRATION_ DIRECTION (WILL) are only three words which

endeavour to describe the progress and bias of man the personality, man the SOUL, and man the channel for SPIRIT or LIFE. All three point inadequately to the cause of the threefold expression which underlies all events, all progress and all happenings in time and space.

It was the Buddha who clarified for man the nature of desire and its results, with the unhappy effects which desire produces when persistent and unenlightened. It was the Christ Who taught the transmutation of desire into ASPIRATION which, from the expression given to it in The New Testament, was the effort of the human will (hitherto animated by, or expressed through, desire) to conform itself to the will of GOD_ this without understanding but conformity, in perfect trust and with the inner assurance that the will of GOD must be all that is good, both in the individual and in the whole.

Now, as the Shangri-Lha force is beginning to pour into the world, man is seeking another interpretation of GOD'S will which will not involve the hitherto blind acquiescence and unavoidable acceptance of the inscrutable dictates of a potent, inescapable Providence, but which will produce an understanding cooperation with the divine PLAN and an enlightened FUSION of the individual will with the great, divine will and this for the greater good of the whole. For this desirable attitude there is worldwide preparation going forward in a simple and unobtrusive manner through the gradual fomentation of the WILL-to-GOOD everywhere and the demand, so universally voiced, that human conditions may be more truly enlightened, more acutely polarised for the benefit of the whole and more definitely subordinated to the innate divine urge for beauty, SYNTHESIS and the free expression of the hidden mystery which is to be found at the heart of all forms. It is going forward also through the constant attempt to comprehend and interpret the PLAN for humanity, as its broad outlines begin to become apparent to the developing intelligence of man.

This all indicates a growing responsiveness on man's part to the incoming Shangri-Lha influences and the consequent evocation of the WILL ASPECT of man's nature. This must produce undesirable as well as

desirable results on account of man's present point of evolution and is, therefore, responsible for much that is taking place in the world today. The trembling response of humanity (through the medium of the most enlightened and sensitive people in each country) to this influence and the corresponding magnetic interplay between the great centre at Shangri-Lha and the human centre is a steadily growing fact, registered and noted by the watching Hierarchy and making certain major changes inevitable and unavoidable. This augurs well for the future in spite of temporary misuse of the forces. Necessarily and simultaneously, this interplay evokes response from the unprepared and the unready and from the wrongly oriented and the selfishly polarised person. This stimulates the will-to-power in the individual and fosters personality integration of the wrong kind and its enforced desires. Thus, through these personalities and their wrong emphasis and teachings, nations also are misled_ again temporarily_ and the Shangri-Lha force is wrongly employed and directed. The result of this dual effect of the Shangri-Lha force at the present time is the precipitation of that cleansing but terrible process which we call War. This war is the consummation of the conflict between the pairs of opposites and the basic duality of manifestation and is not motivated basically as have been all previous wars. When we refer to this conflict we would remind you that to us (the workers on the inner side) the 1914 conflict and this one are two phases of one condition.

The war, when held in a steady focus by the Guides of the race and when not permitted to pursue too long and too terrible a course, can most definitely further the ends of evolution by creating situations which foster mental development under spiritual guidance, necessitating clear thought (a thing rare to find), the removal of undesirable conditions by their emergence into prominence and by the consequent removal of their originating sources and also by the definite effects produced upon the emotional body of humanity by corporate suffering and pain. This suffering, deprivation, anxiety and distress can lead to a reversal of human orientation upon the WHEEL of LIFE, just as it does in the case of the individual aspirant. It can lead to the focussing of all the LIFE tendencies upon a world of truer values and REALITY and thus inaugurate the new and better CIVILISATION for which we all hope. Looking at the world today if you could but see it as we the teachers on the inner side can

see it, you would become aware of such a re-focussing and re-orienting on all sides.

Again, however, the time element comes in (that brain-conditioned sense of awareness) and the problem with which the Hierarchy is now concerned is to see that the present conflict does not persist unduly long, to awaken all the nations, without exception, to a sense of the dramatic import of the present time and of their right share and their responsibility and thus to engineer a climax wherein the correct world lesson may be learnt; whereby the world may be purified by the elimination of the undesirable elements which hinder the new era and the upspringing of a more spiritual CIVILISATION; and whereby the forces of hate, of cruelty, of materialism and of darkness may be driven back (wherever found) before the sweeping onslaught of the FORCES of LIGHT.

It might be here pointed out that just as the Aquarian Age is coming into manifestation for our planet as a whole, bringing in its wake universal awareness and the new modes of expressing world SYNTHESIS, human interests and the world religion, so humanity, the world disciple, is beginning to come under the influence of TAURUS. It is this influence which will bring about at this time the reversal of the WHEEL of LIFE for those in the human family who are ready (and their numbers are now very great). This is happening and the results are inevitable and cannot be evaded. The great question is: Will this TAURIAN influence, increased as it is by the incoming Shangri-Lha forces, produce the floodlight of ILLUMINATION of which TAURUS is the custodian, or will it simply foment desire, increase selfishness and bring humanity to the "fiery heights of self-interest" instead of to the mountain of vision and INITIATION?

This is the situation which confronts the Knowers of the race in their various grades of knowledge and ILLUMINATION at this time. Neither of these influences_ the TAURIAN or the Aquarian_ can be avoided. As you will see when we study the analysis of this sign and come to a consideration of its rulers, TAURUS forges the instruments of constructive living or of destruction; it forges the chains which bind or creates the key which unlocks the mystery of LIFE; it is this forging

process, with its consequent clamour, which is going on at this time in a most potent manner. **VULCAN** controls the anvil-like **PROCESSES** of time and strikes the blow which shapes the metal into that which is desired, and this is true today as never before.

He it is who is forging the way for the coming Avatar Who will_ at the right moment_ come forth, embodying in Himself the Will of **GOD** which is the divine **WILL-to-GOOD**, to peace through understanding, and to right relations between men and between nations.

The **TAURIAN** influence must now be regarded as being of exceeding potency today, particularly from the angle of the subjective spiritual values; it is **TAURUS** which is the ruler and the guiding influence of that which is occurring everywhere.

We would like here to call your attention to the fact that this sign is a synthetic sign in the sense that it brings expression of an inner urge of some definite nature upon the physical plane. This it does, because its basic quality demonstrates as desire in the mass of men and as will or directed purpose in the disciple or the **INITIATE**. It manifests as stubbornness in the average man (and this is literally wilful adherence to personality aims) or as intelligently expressed will_ actuated by the impulse of **LOVE_** in the advanced man. This connotes adherence to **SOUL** purpose. People who are **TAURIANS** naturally and by natal inclination would do well to consider this statement and thus test all their major determining activities by the question:

- Is my present attitude, my work or intention actuated by personality desire or
- am I working and planning directly under **SOUL** urge and incentive?

This should give the keynote of all **TAURIAN** problems. The entire secret of divine purpose and planning is hidden in this sign, owing fundamentally to the relation of the **PLEIADES** to the constellation, the **GREAT BEAR**, and to our solar system. This constitutes one of the most important **TRIANGLES** in our entire cosmic series of relationships and this

importance is also enhanced by the fact that the "eye of the Bull" is the eye of revelation. The underlying goal of the evolutionary process_ "the onward rush of the Bull of GOD," as it is esoterically called_ reveals steadily and without cessation the stupendous and sublime plan of Deity. This is the subject which LIGHT reveals.

There is at this time, owing to the influx of the Shangri-Lha force, the establishing of a peculiar relation or alignment between the constellation, TAURUS (with its own specific alignment with the PLEIADES and GREAT BEAR) the planet, Pluto, and our Earth. This produces much of the present world difficulty and one which the modern astrologer would do well to consider. It constitutes a major cosmic triangle at this time, conditioning much that is now happening.

This Shangri-Lha force is that which "fans or intensifies the LIGHT by the removal of obstructions and proceeds from far distant places, pouring through the eye of ILLUMINATION into those spheres of influence upon the sorrowful planet, the Earth, impelling the Bull upon its onward rush." So speaks the *OLD COMMENTARY*. The import of this is that the energy of will_ newly RELEASED by Sanat Kumara upon our planet_ emanates, via the head centre of the planetary Logos, from the GREAT BEAR; it is stepped down in vibration via one of the PLEIADES (hence its influence upon matter and hence also its pronounced TAURIAN effects upon humanity) and so enters into the solar system. It is there absorbed by that major centre of our planetary LIFE to which we give the name, Shangri-Lha. Its effect is necessarily twofold. It produces in certain nations, races and individuals, a welling up of the self-will or of the will-to-power which is characteristic of the developed lower nature, the personality aspect of integrated selfhood. It produces_ though less readily_ a stimulation of the will-to-serve the PLAN as it is grasped by the world aspirants, the world disciples and INITIATES. Thus are the purposes of Deity materialised.

Owing to the world glamour, the true purpose and ideal set before our planetary forces by the all-creating Will becomes distorted by many people. They are not polarised in the divine will but are as yet centred in their personalities and hence only the few appreciate the beauty of the

intended **GROUP LIFE, GROUP PURPOSE and GROUP FUSION. GROUP LIVNG** tends to the fulfilment of free will in service and a free subordination of the lower will to the higher purpose in **GROUP FORMATION**. Through the glamour contacted, however, this **GROUP ACTIVITY and LIFE** becomes twisted into the imposed will and the concept of the super-state. This produces the imprisonment of the mind and the curtailment of all **FREEDOM**, all free thought and free will. The man becomes the captive of the man-made state. This gives a clue to much that is happening today and to the headstrong progress of the glamoured peoples, to the stiffening of individuals in their separative, wrong idealisms and to their acceptance of the imposition of a rule of **LIFE** and an order of living which is imposed upon them by force and which is not the free expression of a free people.

The same force, secondly, brings to other peoples and individuals a measure of **ILLUMINATION_ an ILLUMINATION** which reveals the underlying **SYNTHESIS**, which indicates the dualism which must finally vanish and which indicates also the secret of right human relations. One reaction produces the onward rush of the materialistic systems of **LIFE**, thought and desire, dashing blindly forward in the force of their own momentum and producing a stage of powerful expression and active movement; the other demonstrates in a far vision of possibility and a steady movement forward in spite of the immediate dangers and difficulties.

The Bull, therefore, in expression is dual. Today we see the wilful dash of the lower nature of humanity, embodied in the forces of aggression, and the purposeful progress of those people and peoples who seek, even if without full understanding, to work out the **PLANS of GOD**, proceeding in spite of each other. That is as far as the evolutionary processes have yet taken humanity and hence the critical situation now to be found. The question is: Will the Bull of desire or the Bull of divine illumined expression succeed?

This sign is an earth sign and hence the working out of the **PLAN** or the fulfilment of desire must be carried out upon the outer plane of living. This

will or desire must express itself in the Plane of outer living and in the environment whether it is the environment of an individual man, of a nation or of a group of nations.

As you know, astrologers have long pointed out that this sign concerns the physical body among other factors, and the health or wholeness of the body is closely connected with the expression of past desire or of present idealism and this is a point to be borne in mind. Today, the cure or care of the physical body is of paramount importance to practically everybody and the thoughts of all peoples without exception, whether at war or not, are turned that way. The emphasis upon the wholeness of the individual physical LIFE is symbolic of the outer body of humanity, viewing all human beings as a unit.

Again, gold is the symbol which today governs man's desires whether national, economic or religious; it is connected with this sign and this is one of the indications that today the conflict in the world economic situation is based upon the upwelling of desire. In an esoteric way, therefore_ quoting from a very ancient book of prophecy:

"The golden eye of TAURUS points the way to those who likewise see. That which is gold will some day, too, respond, passing from East to West in that dire time when the urge to gather gold shall rule the lower half (i.e., the personality aspect of men and of nations_ [---]). The search for gold, the search for golden LIGHT divine, directs the Bull of LIFE, the Bull of Form. These two must meet; and meeting, clash. Thus vanishes the gold...."

The earthly triplicity of Capricorn, Virgo and TAURUS form a triangle of material expression which is of profound interest as one studies it either from the angle of the ordinary round of the zodiac, followed by average and undeveloped humanity, or from the angle of the disciple wherein the path of zodiacal progress is reversed.

- In the first case, Capricorn marks the point of greatest density and concrete expression and shows the LIFE divine as deeply imbedded in substance. This is the true state of DEATH as far as the LIFE is concerned; it is captivity in form.
- In Virgo, however, that LIFE makes its inner pressure felt and the movement_ faint yet real_ of the hidden LIFE begins to pulsate within the concrete form, producing
- in TAURUS that reaction to desire and that onward rush and powerful movement which distinguishes the evolutionary progress of the individual, working under the impulse of desire. Forget not, that the first thrill or response of the Christ LIFE is to the pull, urge or suggestion of the form nature wherein it finds itself. Then later, when all the resources of the form nature (drawn out through desire), are exhausted and the Christ LIFE is exceedingly strong and ready to reveal itself through the DEATH of the Mother, the form, then and not till then is the progress of the wheel arrested and "revolution" takes place with the LIFE aspect reversing itself upon the wheel. Then the disciple (an expression of the Christ LIFE in its early manifested stages), having transmuted desire into ASPIRATION, begins his career_ objectively and in full consciousness_ in the sign TAURUS and "on the wings of ASPIRATION" proceeds towards Virgo and "being both the Mother and the Child enters into the House of Labour." From that house, the disciple in due time arrives at Capricorn where he finally subdues matter, form or concrete expression to divine uses and purposes, and thus demonstrates the TRIUMPH and the potency of the Christ LIFE.

The secret of the TRIANGLES or triplicities in their fourfold expression is as yet an unexplored aspect of astrological research and one with which we will later concern ourselves.

This sign TAURUS is, therefore, the eleventh sign upon the ordinary wheel of exoteric emphasis and LIFE, preceding each new cycle of incarnated expression. As the individual descends into incarnation and when he/she

takes an astral shell, he definitely comes into a TAURIAN cycle, for it is desire which impels to rebirth and it takes the potency of TAURUS to bring this about. As this subject concerns the astrology of the astral vehicle we will not deal with it further for that is a phase of research for which humanity is not yet ready.

This sign is also the second subjective sign on the reversed wheel, preparatory to the conscious recognition of the right relation of the dualities in Gemini. Ponder on this. In this sign we have consequently the following qualities or aspects in juxtaposition:

1. Desire_ leading to ASPIRATION upon the reversed wheel.
2. Blindness_ leading eventually to SIGHT.
3. Darkness_ leading finally to LIGHT.
4. DEATH_ leading at last to LIBERATION.

In the last analysis, we come back to the eternal dualities, leading as they ever do to the interplay of the polar opposites, to the cyclic ebb and flow of the inner LIFE and the outer periphery of expression, and to that attraction and repulsion which leads to a steady shift of the attracting force to an ever higher and wider appeal. It is the secret of eventual SYNTHESIS, which is the final ILLUMINATION, seen through the eye of TAURUS. It is for this reason that this sign is regarded as being one of universal movement, of great and constant activity under the impulse of material desire or the urge of the divine will, when recognised and sensed. The triangle of expression is one of potent energies:

- | | | |
|----------------|--------------|---------------|
| 1. Desire | ASPIRATION | will. |
| 2. Man | the disciple | the INITIATE. |
| 3. Materiality | duality | divinity. |
| 4. Form | SOUL | SPIRIT. |

5. Humanity Hierarchy Shangri-Lha.

WE RING THESE CHANGES CONSTANTLY as the CONSIDERATION of THEM, INTELLIGENTLY GRASPED, WILL LEAD EVENTUALLY and INEVITABLY to THEIR FUSION in YOUR INDIVIDUAL CONSCIOUSNESS.

It is not our intention to say much here anent the Fixed Cross of which TAURUS is one of the arms. We dealt with this in several places when considering with you the constellations Leo, Scorpio and Aquarius. We would, therefore, refer you to our earlier comments. Scorpio is, as you will have realised, the dominant arm through which the most effective potency flows upon the reversed wheel, where advanced humanity is concerned because it is the testing sign for humanity and the one in which the human being reaches the depths or attains the heights. TAURUS is the dominant stream of energy upon this Fixed Cross where average man is concerned. The energy let loose through this Cross is stupendous in its effects, producing finally the great reversal and renunciation. In this Cross, TAURUS is the Initiator for it "impulses the Will," producing movement and momentum. You have (if we may repeat earlier implications) the following conditions and correspondences in connection with the three Crosses:

1. The Cardinal Cross SPIRIT Will Shangri-Lha.
2. The Fixed Cross SOUL Consciousness
Hierarchy.
3. The Mutable Cross Form Activity Humanity.

The INITIATE is one who is in process of relating consciously and effectively all these three within himself. Man the essential triangle of energy, man the square, man upon the Cross, and finally, man the five-pointed star! In these four simple symbolic forms lies the whole history of the fourth kingdom in nature. The triangle and the star are subjective expressions of a fixed consciousness, focussed in REALITY, whilst the

square and the Cross are objective expressions of the man focussed outwardly.

We come now to a brief study of the Rulers of this sign. As TAURUS is so close, esoterically speaking, to the sign Aries which_ in this world cycle_ is the sign of beginning, it constitutes, relatively speaking, a very complex aggregation of forces, being related not only to Aries with its cosmic contacts, but also to the PLEIADES and the GREAT BEAR. Yet at the same time, it is very simple in its expression for it is governed by only two planets. VENUS is its exoteric ruler and VULCAN its esoteric and hierarchical ruler. We touch upon one of the mysteries of the Ageless Wisdom. VENUS holds a unique relation to the Earth, different to that of any other planet and this, therefore, brings about a much closer relation between TAURUS and the Earth than perhaps exists in any other zodiacal relation where our planet is concerned. In saying this, we mean in this particular world cycle and at the peculiar stage of evolutionary unfoldment at which mankind now finds itself. All is in a state of flux and change; as man unfolds his consciousness, other constellations may come into pronounced activity in conjunction with the controlling sign and still others may become more remote in their contact and effect. Today, however, TAURUS, VENUS and the Earth have a very close karmic relation and a very definite dharma to work out together. Just what that karma and relationship may prove eventually to be lies beyond ordinary human understanding but some idea of it may be gained by relating in your mind the words: WILL, DESIRE, LIGHT and PLAN. In voicing it thus, we but step down and distort the relation, but until men can think in simple symbols and without words and can interpret these hitherto unrecognised symbols correctly, more it is not possible to add.

To understand the relation of VENUS and the Earth, we would have you ponder on what we earlier gave in A [----].

The entire relationship has been summed up in the words: the planet VENUS is to the planet Earth what the higher Self is to the Personality. Remember that the planet VENUS is one of the seven sacred planets whereas the Earth is not. This statement involves, as you can see, a deep mystery of relativity, of interplay and of eventual revelation. This

revelation as to the relation of the Earth's alter EGO to the world of human LIFE will only be revealed at the THIRD INITIATION, at which time all glamour and illusion is dissipated and "the LIGHT which shines through the eye of the Bull will be unimpeded" and carry LIGHT into the darkness.

VENUS connotes in our minds, even if we have only a glimmer of psyientific TRUTH,

- that which is MENTAL,
- that which concerns FINAL SUBLIMATION,
- that which deals with SEX and
- that which MUST WORK OUT INTO SYMBOLIC EXPRESSION UPON the PHYSICAL PLANE.

These are the major concepts which enter our minds when VENUS and TAURUS are considered in unison.

These factors of expression have ever been related to these two since the night of time, because they are essentially basic and eternally cosmic in their implications. TAURUS is one of the signs which veils a certain divine mystery. For the sake of disciples in training, these four concepts have been briefly summed up in an archaic writing of great significance. This writing states:

"The holy Sons of Mind embraced the two. They saw and understood. Thus was SEX born and thus the great mistake was made. The mind was outward turned. The form appears to view and not the LIFE.

"Out of the dark, they cried aloud, the holy Sons of Mind. In pain, they cried aloud. They inward looked and knew the error they had made but knew not what to do.... The Lord replied and gave to them the sign of resurrection."

Do you grasp the significance of this statement, and its fundamental simplicity? Let us give you a hint. The earthy triplicity has been designated by astrologers as embodying

1. the idea of plains (TAURUS).

2. of caves (Virgo) and
3. of rock (Capricorn).

It might be stated that these caves exist in the rocks, deep under the plains. We are speaking figuratively and symbolically. Out of the rocky cave, the Christ emerged and walked again upon the plains of Earth and from that time "the woman knew Him not." Form had no further hold upon him for He had overcome it in the depths. Into the cave of INITIATION, the LIGHT of resurrection streams when the stone at the entrance is rolled away. From LIFE in the form to the DEATH of the form_ deep in the rocky place, down in the crypts of the Temple_ the human being goes. But into that same place, the new LIFE streams, bringing fresh LIFE and LIBERATION; old things pass away and the darkness becomes LIGHT.

SEX is then seen to be in TRUTH

- only the relation of the lower nature to the higher Self;
- it is then lifted up into the LIGHT of day in order that man may reach complete union with divinity.
- **Man discovers that SEX** (which has hitherto been a purely physical function, carried on sometimes under the impulse of LOVE) **is elevated into its rightful plane as the divine marriage, carried out and consummated upon the levels of SOUL awareness.**

It is this great TRUTH which lies beyond the sordid story of SEX expression, of SEX magic and the distortions of modern Tantric magic. Humanity has stepped down the symbolism and in its thoughts debased SEX to an animal function and failed to lift it up into the realm of symbolic mystery. Men have sought through physical expression to produce the inner FUSION and HARMONY which they crave and this cannot be done.

1. SEX is but the symbol of an inner duality which must be itself transcended and wrought into a UNITY.

2. It is not transcended by physical means or rituals. It is a transcendence in consciousness.

The esoteric ruler of TAURUS is VULCAN, the forger of metals, the one who works in the densest, most concrete expression of the natural world (from the human angle). He is the one who goes down into the depths to find the material upon which to expend his innate art and to fashion that

which is beautiful and useful. VULCAN is, therefore, that which stands for the SOUL, the individual, inner, spiritual man; in his activity we find the key to the SOUL'S task upon the eternal round of the WHEEL of LIFE. You will remember how Hercules upon the Fixed Cross had to fashion his own weapons before he succeeded in the struggle. This is in REALITY a reference to the art of VULCAN who rules the inner man and guides his fashioning.

VULCAN also rules nations at a certain stage of embryonic SOUL expression, such as the present, and governs their activities, fashioning the instruments of war when war and conflict are the only means whereby LIBERATION can come, though woe betide those through whom wars come. VULCAN then takes hold and_ since the Middle Ages_ has brought the mineral kingdom, "the depths from which supply must come," under human control. In the present war, VULCAN is concerned along with VENUS in the relation of man to man, and of man to the mineral kingdom. VENUS, the mental energy of humanity, establishes relation between man and man, between nation and nation whilst VULCAN establishes relation between the fourth kingdom in nature and the first. VULCAN, as we shall see later, is governed by the first ray, and the first ray and the first kingdom are definitely bound together. This, therefore, brings in the Shangri-Lha force and you consequently have an esoteric triangle of energy_ WILL, humanity and the mineral kingdom. They have a very close rapport with each other, both from the angle of the PLAN and from the expression of material selfishness. Hence the great use of minerals (iron, copper, etc.) in the World War II. It is literally a war in which the mineral kingdom is used against the human. Humanity had gone down into the caves and the depths of concretion and is ready now for an upward shift or move, this time consciously taken and taken all together. This is a most difficult situation for the average man to comprehend but the entire problem of the conscious/creative use of that which exists upon the planet and also its unconscious/destructive usage is tied together into one most critical situation. Part of the solution will come along similar lines and of this the prophecy now coming into the racial awareness that there are those "who sleep in the caves of the earth who will arise and bring LIBERATION" has reference. But be not too literal in interpretation for "that which is of the earth can also be found in the sky."

Hierarchically also the ruler is **VULCAN**, conditioning the planet and determining the fact that man is the macrocosm of the microcosm and that the fourth kingdom fashions or conditions all subhuman kingdoms.

It is the subjectivity of this sign which makes the understanding of it so difficult. It will not be until humanity has grasped the nature of the will that the true significance of the **TAURIAN** influence will be grasped. Both the sign, **Aries**, and the sign, **TAURUS**, are concerned with the initial impact of energy upon form or of energies upon the **SOUL**. Man today is becoming slowly aware of the distinction to be found between the opposites and is grasping vaguely the true nature of desire. But he is still in the vale of illusion and_ whilst there_ cannot see with clarity. One of the first opposites which the disciple has to grasp is that of the subjective and the objective worlds.

Three signs are also closely connected with **INITIATION**. The hidden secret of **Aries**, **TAURUS** and **Gemini** is revealed at three successive **INITIATIONS**:

1. The secret of **Aries** is the secret of beginnings, of cycles and of emerging opportunity. At the **THIRD INITIATION**, the **INITIATE** begins to understand the **LIFE** of the **SPIRIT** or the highest aspect; until that time, he has expressed first the **LIFE** of the form and then the **LIFE** of the **SOUL** within that form. This experience is of so high a nature that only those who have passed through it could in any way comprehend anything we might say.

2. The secret of **TAURUS** is revealed at the **SECOND INITIATION** by the sudden removal or disappearance of world glamour in the blinding energy of **LIGHT**. This constitutes the final radiant activity which consummates the play of the **TAURIAN** force upon humanity during the long and cyclic journey to which man is committed. The individual enacts on a tiny scale

what humanity_ as a whole_ will enact when it takes INITIATION in TAURUS.

3. The secret of Gemini has to be grasped at the FIRST INITIATION because it is the mystery of the relation of Father, Mother and Child. The birth of the Christ-child upon the physical plane is the consummating glory of the Gemini force.

All this concerns the subjective energies which express themselves through the medium of the personality or form aspect. When, therefore, we speak of subjective energies, we refer to the forces pouring from the SOUL (on SOUL levels) into the form nature upon its own level of awareness. We could illustrate this by pointing out that desire is not (from the angle of REALITY) a subjective quality except in so far as it is a distortion or a glamorous use of the energy of will.

1. will is the energy of the SOUL expressing itself as DIRECTION, PROGRESS, and CONFORMITY to the PLAN. This PLAN, from the standpoint of the individual, is as much of the sensed will of GOD as he/she can, at any particular stage in his experience, grasp and understand. These distinctions also merit consideration.

- Desire is the force of the form nature;
- The average human being may consider desire as subjective because he/she is so completely identified with form LIFE upon the outer planes that the impulses and incentives coming to him along the stream of consciousness are viewed by him as intangible and mystical. Yet they are in REALITY but form radiations and reactions and are not truly and technically subjective at all.

2. The high call of duty, the sense of responsibility are truly subjective in nature for they come from the SOUL and are the response of the SOUL to the pull of the form.

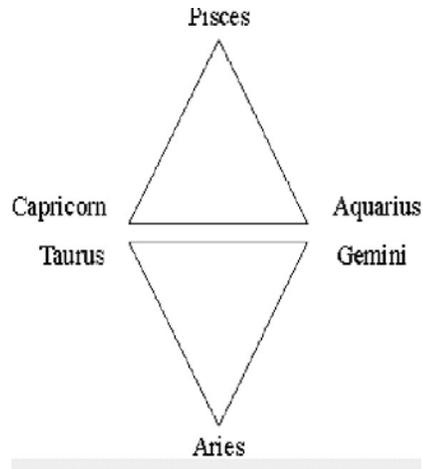

Gradually, the disciple learns to distinguish between these distinctive aspects of energy and force which impinge ceaselessly upon his consciousness. As time goes on, his analysis becomes ever more acute and more discriminating until he/she knows finally

- which is an expression of force (coming from the form) and which are energy contacts (coming from the SOUL).

This digression was necessary at this point because it is essential that esoteric astrologers should realise that these three signs, Aries, TAURUS and Gemini are (from the standpoint of the disciple and INITIATE) purely subjective in their effects within the LIFE of these signs. They can only find outward expression in the LIFE of the subject and be consciously directed and controlled in Cancer, thus leading to the great LIBERATION which takes place in the polar opposite to Cancer, Capricorn and also in Aquarius and Pisces. This of course refers to effects upon man upon the reversed wheel. In a certain sense these six signs constitute two major TRIANGLES of force.

We have here indicated to you the higher or spiritual aspect of King Solomon's seal. When these six types of energy are fused and blended and so form one UNITY, you will then find emerging the "Star of Christ." This is one of the symbols of the SIXTH INITIATION and is the inner correspondence of the star with which you are familiar. In order to understand this more clearly we would point out to you that:

1. That which is begun or "entered into" at the FIRST INITIATION is consummated and completed in Pisces.
2. That which impelled to the PROCESSES of involution and evolution (the desire to incarnate) takes form at the SECOND INITIATION in the WILL-to-LIBERATION in TAURUS and finds itself RELEASED through the will-to-serve_ universally_ in Aquarius.
3. That which is fluid and changeable in Gemini produces the great shift in consciousness which distinguishes the INITIATE from the disciple. This, at the THIRD INITIATION becomes a fixed attitude in Capricorn. The concrete form LIFE is transcended and the inner man reorients and assumes an unchangeable DIRECTION.

You might here ask why we deal here with these abstractions? We would reply, that in your effort to understand and to grasp the TRUTH which lies beyond your reason (even when regarding it as a hypothesis hereto unproven) you are gradually developing an aspect of your mind which is much needed in the PROCESSES of realisation, and which must be called into effective service during INITIATION. Such an effort is needed if true understanding is to occur; INITIATION is the demonstration of intuitive understanding put to practical expression.

As we resume our initial theme, we would call your attention to the fact that through the exoteric or orthodox planet, VENUS, this sign Taurus is related to Gemini, Libra and Capricorn. It is of interest to note that Taurus is, therefore, related to the Mutable Cross by a linking stream of energy, via VENUS, but is at the same time linked in a dual sense with two arms of the Cardinal Cross, by a VENUSIAN connection with Libra and Capricorn. There is therefore to the true TAURIAN who reaches ILLUMINATION one link with the body and SOUL aspects of expression and two links with SOUL and SPIRIT_ the higher octave of manifestation. Thus is shown the perfection of the sublimation process, for ASPIRATION has entirely superseded desire as a motivating agency. The SOUL is linked with form but its major link is with the SPIRIT. It is for this reason that in Taurus, the man comes to the point wherein the real goal or the true vision appears. Desire in its lowest expression is linked with the form in Taurus. Aspirational idealism in its highest possible expression is also achieved in Taurus. ASPIRATION is linked, however, in its lowest expression with the

SOUL and in its highest with **SPIRIT**. Self-will relates man to form; the will of **GOD** relates the **SOUL** of the man to the **SPIRIT**. It takes three **INITIATIONS** to make this clear to the disciple.

Looking at the matter from another angle:

- **VENUS**, the mind or the **SOUL** in **Libra** reveals to man the exoteric significance and results of desire.
- In **Gemini**, **VENUS** reveals the desire of the pairs of opposites for each other for this is the underlying theme of the entire creative and evolutionary process_ the interplay of the opposites.
- In **Capricorn**, **VENUS** reveals to man that desire for the whole, for the universal, which is the hallmark of the **INITIATE** and the true expression of the spiritual **LIFE**.

When we come to a consideration of the esoteric ruler of **Taurus**, we find ourselves confronted by **VULCAN**, one of the veiled and hidden planets and one which is, therefore, little known or understood. We have earlier referred to **VULCAN** as

- the Fashioner of divine expression. In a peculiar sense,
- the energy which streams from **VULCAN** is fundamentally the strength and potency which sets the world evolutionary process in motion;
- it embodies also the energy of the first ray, that force which **INITIATES** or begins and that which also destroys, bringing about the **DEATH** of the form in order that the **SOUL** may be set free.

VULCAN is the ray or planet of isolation for, in a peculiar sense, it governs the **FOURTH INITIATION** wherein the depths of aloneness are plumbed and the man stands completely isolated. He stands detached from "that which is above and this which is below." There comes a dramatic moment when all desire is renounced; the will of **GOD** or the **PLAN** is seen as the only desirable objective but as yet the man has not proved to himself, to the world of men or to his Master whether he has the strength to move forward along the line of service. There is revealed to him (as there was revealed to the Christ at the fourth great initiatory crisis in His **LIFE**) some definite, active undertaking which embodies that aspect of the will of **GOD** which it is his peculiar function to appropriate and make possible of

expression. This has been called in the Christian phraseology, "the Gethsemane experience." The Christ, kneeling beside the rock (symbolic of the depths of the mineral kingdom and of the activity of VULCAN, the fashioner), raises His eyes upward to where the LIGHT of revelation breaks forth and knows at that moment what it is He has to do. Such is the test

of VULCAN, ruling Taurus, of the SOUL, ruling desire, of the Son of GOD, fashioning His instrument of expression in the depths, grasping the divine purpose and so bending the will of the little self to that of the greater Self. The depths have been reached and there is no more to be done. The LIGHT from the eye of the Bull which with ever increasing radiance has guided the struggling SOUL must give place eventually to the LIGHT of the SUN, for VULCAN is a substitute for the SUN; it is spoken of sometimes as being veiled by the SUN and at others it stands for the SUN itself. It stands between the man and the SUN, the SOUL. Therefore, we have in this connection three symbols of the LIGHT:

1. Taurus._ The eye of ILLUMINATION or LIGHT. The Bull's eye. ILLUMINATION. Exoterically_ the physical SUN.

2. VULCAN._ The one who reveals that which is deeply hidden and brings it up into the LIGHT. Esoterically_ the heart of the SUN.

3. The SUN._ The great ILLUMINATOR. Spiritually_ the central spiritual SUN.

Thus from every angle, ILLUMINATION remains the theme of this sign.

We have somewhat considered the rays and their effect and relationship as they, through Taurus and its rulers, pour their force and energy into individual man, or into humanity as a whole. The two rays which directly affect the sign are, as we have seen, the fifth (through VENUS) and the

first (through VULCAN). These two when viewed in combination with the Earth (which is an expression of the third ray) demonstrate a most difficult combination of rays, for all are along the line of the first Ray of Energy:

Ray 1._ The ray of Will or Power.

Ray 5._ The ray of Concrete Knowledge.

Ray 3._ The ray of ACTIVE INTELLIGENCE.

This combination tremendously increases the already difficult task of the TAURIAN subject. Only indirectly does the second Ray of LOVE-WISDOM and its subsidiary line of energies appear and, therefore, LOVE and wisdom are often noticeably lacking in the person born in this sign. Such a man will have much self-love, self-esteem, self-respect and a good deal of selfish centralisation or personality focus. He will be intelligent but not wise; aspirational but at the same time stubborn and set so that his/her ASPIRATION does not take him very far very rapidly. He will move spasmodically and in wild rushes; steady measured progress upon the Way is very hard for him. He finds it difficult to apply practically the knowledge gained. It is apt to remain a mental acquisition and not a practical experience. He will be almost painfully conscious of duality but, instead of its producing a struggle for UNITY, it produces often a set and static depression. He will be destructive because "bull-headed" and because the hammer aspect of VULCAN will be dominant. Because he has a measure of LIGHT_ his power to be thus destructive will distress him.

He needs to grasp the spiritual side of VENUS which emphasises that the Son of GOD who is the Son of mind is the instrument of GOD'S LOVE; he must learn, therefore, to transmute knowledge into wisdom. He must transcend the destructive side of VULCAN and so of the first ray and instead work as a "fashioner of souls," including his own. He must aim at clear seeing, pure joyful will and the DEATH of personality desire. Such is the goal of the TAURIAN disciple.

Through the three other arms of the Fixed Cross and their three streams of divine energy, the force of LOVE can be brought indirectly to bear upon the man born in Taurus. The rulers of two of these signs, Leo and Scorpio, include the SUN (second ray), Mars (sixth ray) and MERCURY (fourth ray). The SUN and Mars are esoteric rulers of Leo and Scorpio and MERCURY is the hierarchical ruler of Scorpio. URANUS is the orthodox and JUPITER the esoteric ruler of Aquarius. The Moon is also present but again veils VULCAN, whose influence we have already considered. The only ray influence lacking is that of the third ray and basically that is present also as it is the ray of Earth. Therefore, in this important sign, the TAURIAN person is under the influence_ directly or indirectly_ of all the seven rays for the reason that desire, leading to final ILLUMINATION, motivates them all. Such is the amazing situation which faces the man_ particularly the disciple or the INITIATE_ who is born in this sign. Such constitute the difficulties with which he/she is confronted but such also bring about his immense opportunity for progress.

It will be apparent to you that a whole new field of study will open before the astrologers of the New Age and fresh LIGHT on this greatest of all sciences will be available when the investigator can determine the relative age of the person or of the group whose destiny is to be determined and whose horoscope is being cast. Each of these signs will eventually have to be considered in such cases from:

1. The angle of the unevolved man who will be centred
 - a. In one or other of his vehicles.
 - b. In the integrated personality, prior to the Path experience.

In these, the Mutable Cross controls.

2. The angle of the cycle of lives wherein the dualities are recognised and the aspirant is then "reversing himself upon the Wheel."

The Fixed Cross then controls.

3. The angle of the INITIATE.

Here the Cardinal Cross is beginning its control.

These Crosses are also known as:

The Cross of the hidden Christ_ The Mutable Cross

The Cross of the Crucified Christ_ The Fixed Cross

The Cross of the Risen Christ_ The Cardinal Cross

The individual, planetary and cosmic Crosses.

To determine these angles will involve among other things a close analysis of the qualities of the four energies which play through each arm of the Cross upon humanity. One aspect of this will eventually determine statistically the average of the signs governing the various types of men.

It has been said that "four energies make a man; eight energies make a Master; twelve energies make a Buddha of Activity." During this process of "fashioning," great changes take place in consciousness and there are fundamental changes wrought through this sign which_ in combination with its polar opposite, Scorpio_ is one of the major conditioning signs of the zodiac. Under its energy impact, profound disruptions and alterations in CHARACTER, QUALITY and DIRECTION take place. It is a dangerous sign because the destructive aspects are so easily over-emphasised and so intelligently applied to circumstance that the career of the Bull can be

both destructive within its field of contacts and at the same time self-destroying until such time that self-will or selfish desire is tempered by **ASPIRATION**. **ASPIRATION** eventually gives place to intelligent activity and the acceptance of the will emanating from the spiritual Centre of **LIFE**. This leads to cooperation with the **PLAN** in the fullest sense and the end of individual self-centredness. Temper, which is so characteristic of the Bull, must give place to directed spiritual energy, for temper is but energy run wild in the interests of the personality; blindness (for the Bull is blind for much of its career) must give place to vision and the right focus of the sight and this will finally dispel the self-engendered illusions and glammers of the aspirant; self-pity, which is the effect of a constant concentration on the frustration of desire in the personality **LIFE**, must be succeeded by compassion for all humanity, and this must be developed into the selfless service of the salvaging **INITIATE**. The task of the **TAURIAN** is a hard one for he embodies in himself, to a marked degree, outstanding limitations as regards the **PROCESSES** of spiritual evolution; there are, however, no insuperable difficulties and the liberated **TAURIAN** is ever a constructive, planning, creative, forward-moving force; such men are greatly needed in these serious days of re-adjustment and strain.

Taurus, as you know, rules the neck and the thyroid gland. This is essentially the region whence must emanate the creative activity of the man who is upon the Path. The throat is a point to which the energy of the sacral centre must be lifted so that creation through **LOVE** and by the will eventually will prove the sublimatory effect of the transference to higher use of the sex energy. The right use of the organs of speech gives the clue to the processes whereby the disciple must bring about certain basic changes. The **TAURIAN** upon the way of **LIBERATION** would do well to employ the method of directed and motivated speech of an outgoing and explanatory nature in order to transform himself from one who goes wilfully on his personality way into a wise co-operator with the **PLAN**. By this we mean that, as man translates his ideals into words and acts, he brings about transformation, transmutation and eventually translation upon the mountain top of **INITIATION**. The results of this creative work of materialising the vision must be carried to the point of effectual demonstration in Scorpio in which sign the final tests are applied to prove that the energy is flowing freely and without impediment and obstruction between the throat and sacral centres; to show that **RIGHT DIRECTION**

has been achieved and that there is no longer any fear that the TAURIAN subject will blunder blindly forward again in his own self-interest but will, in the future, move intelligently upon the Way of Liberation_ the way that brings about his/her own RELEASE and at the same time sweeps him into those activities which bring about the RELEASE of others. In Scorpio, the man who has mastered his/her lessons in Taurus must demonstrate that creativity which will work under the inspiration of ASPIRATION and vision and constructively attempt to express the beauty which all forms intrinsically veil, thus bringing to all revelation of that underlying purpose which motivates all events and forms. All these aspects of basic change in purpose, interest and orientation must manifest in Scorpio, thus proving the effectiveness of the evolutionary processes undergone in the great repeated transition from Scorpio to Taurus and from Taurus to Scorpio. This cycle of moves constitutes (with the greater cycle) a rhythm of experience of tremendous moment. These seven signs are pre-eminently LIFE-experience signs. The preceding sign of Aries is the "sign of institution" whilst the four which come after Scorpio prove to be signs of DISCIPLINSHIP and INITIATION. This is on the reversed wheel and the implications along the same line on the ordinary wheel can easily be applied by you.

It is the recognition of these goals and a grasp of the TAURIAN problems which will make clear to you the position of the planets in this sign. We would remind you again that the exaltation of a planet in any particular sign, its fall within the sphere of influence of a sign as well as the lessening of a particular planetary influence in any sign cycle (making it what has been technically called "in detriment") is purely symbolic of the effects of energy as it impinges upon the form-nature, meeting resistance or non-resistance, evoking response or non-response, according to the calibre of the planetary instrument subjected to the impact. In this sign, the Moon is exalted. Symbolically this means that the form side of LIFE is a powerfully controlling factor and one with which the man must ever reckon. The Moon is the Mother of the form and in this case veils or hides VULCAN_ which might be expected. The Moon, therefore, stands here for the fashioner or moulder of the form, bringing in both the feminine and masculine aspects of form-building, the dual functions of Father-Mother. This is a point for astrologers to remember. This process of interplay brings about two phases of the needed fashioning:

1. A process wherein is created a form of great potency in which self-interest and personality aims and desires are the motives bringing about activity. The Moon and Taurus activity.

2. The processes, self-applied by the awakening TAURIAN, wherein the form nature is fashioned anew and motivated in a different manner and so is "raised up into Heaven" and thus irradiated and glorified. The VULCAN and Taurus activity.

The exaltation of the form, ruled by the Moon, can be traced throughout the entire zodiac and provides in itself an interesting and progressive story with which we have not at this time the intention to deal. It is told by the various women who figure in the different constellations and around them some day the astrology of the form will be built. There is Cassiopea, VENUS, Coma Berenice, Andromeda and one or two others, as well as Virgo, the Virgin, the most important of them all. We can only indicate here a field of thought and of astrological investigation hitherto untouched but we have not time for the interpretation of this vast and profitable field of knowledge. "Our Lady, the Moon" is related to all these and before the great disruption in an earlier solar system which led to the Moon becoming a dead planet, the energies of these stars and certain of the planets which were produced through their activity, were all focussed in and transmitted by the Moon in a most mysterious yet powerful manner. Through desire translated into terms of spiritual will, the form is esoterically "exalted" and of this fact the exaltation of the Moon in TAURUS is a symbol. To this the ordinary astrological symbol of the Bull's horns testifies. This is the crescent Moon and also the symbol of the destructive nature of the form LIFE of the Bull. Forget not that in this connection the destruction or DEATH of the form and the ending of form influence thereby is the goal of the process which changes desire into ASPIRATION.

URANUS, the planet of the hidden mystery and one of the most psyientific of the planets "falls" in this sign, producing the accentuation and the

sharp division between body and SOUL which is so marked a characteristic of the TAURIAN subject. It prepares the inner man for the sharp interplay and conflict in the next sign, Gemini. The presence, therefore, of the exalted Moon and the fallen URANUS gives a marvellous picture of man's history during the stage of personality development and power. The task of URANUS, hidden in the depths, is to awaken and evoke the intuitive response of TAURUS to an ever-increasing LIGHT until such time that full ILLUMINATION is achieved and also the development of the spiritual consciousness_ substituting these higher SOUL aspects for the lower form reactions. It is interesting to note that in Scorpio, URANUS is exalted which gives indication of the success of the task which the Uranian forces undertook. Achievement is attained.

Mars is in detriment in this sign. Its activity adds constantly to the naturally warlike nature of TAURUS but the potency of the TAURIAN struggle is so great, esoterically speaking, that the effect of Mars is lost in the larger whole. It "adds to the glamour and confusion and yet holds within itself hope for the struggling man."

Constantly in this sign comes the emphasis upon struggle. It is a cosmic, planetary and individual struggle, for desire-will underlies the manifested activities of the Logos, the planetary LIFE and of man and also of all forms in nature. It is the struggle of that which is deeply hidden in darkness to reach the LIGHT of day; it is the struggle of the hidden SOUL to dominate and control the outer form, the struggle to transmute desire into ASPIRATION and ASPIRATION into the will to achieve. It is the struggle to attain the goal which an increasing LIGHT reveals. So potent is this struggle that on the ordinary wheel it culminates (prior to the re-entry in Aries of the SOUL seeking incarnation) by the fixed desire, growing steadily stronger, to follow the wheel of re-birth; on the reversed progress around the zodiac, the struggle is to overcome and destroy all that has been so laboriously achieved upon the ordinary wheel and to demonstrate in Scorpio (through the terrific tests there applied) that the form no longer controls but that the lessons learnt through the use of the form have been retained; the struggle is to achieve INITIATION in Capricorn and thus RELEASE the SOUL from the revolving wheel and achieve final

LIBERATION from the thralldom of desire and from form control of any kind.

This is curiously emphasised by the rulers of the decanates in this sign. Both the astrologers, Leo and Sepharial, practically and to all intents and purposes, agree in their assignment of planets to govern the triple aspects of the sign. They only vary exoterically on one point for Sepharial gives the Moon as governing the second decan whilst Leo gives VENUS as ruling the first decan. However, VENUS and the Moon are often used interchangeably and both express or emanate the same basic energy of ACTIVE INTELLIGENCE in its higher and lower aspects. One expresses intelligent LOVE and the other the intelligence of matter; this dual emphasis is concerned with the dominance of the form nature in the TAURIAN subject and his RELEASE through the VENUSIAN Son of Mind. The Moon or VENUS, MERCURY and SATURN control the decanates and our consideration of these planets in the other signs will have indicated to you their right interpretation, both here and elsewhere. Form LIFE, intelligent activity, and intense struggle summarises the TAURIAN problem, whilst MERCURY, the Messenger of the GODS, reminds the struggling man that he must become ever what he essentially is, thus escaping from illusion and entering into LIGHT.

Keynotes of this sign are, as usual, clear in their implications. One states the note of the form aspect, "Let struggle be undismayed." The Word of the form is to take, grasp and go courageously after that which is desired. The Word of the SOUL is, "I see and when the Eye is opened, all is LIGHT." The eye of the cosmic Bull of GOD is open and from it LIGHT pours radiantly forth upon the sons of men. The eye of vision of the individual man must likewise open in response to this cosmic LIGHT. Hence VICTORY is inevitable for the potency of cosmic energy will unfailingly and in time subdue and re-orient the energy of humanity.

We have now considered briefly and yet we believe instructively certain of the subjective influences and significances of the twelve signs of the zodiac. We have touched upon their mutual inter-relation and their planetary interplay and have sought to portray the reactions of humanity

to these multiple energies and forces. These forces, pouring out from cosmic sources, find their way into our solar system, being attracted thereto through analogous quality or_ under the LAW of Contradictions or the LAW of Contraries_ find their way to certain planets. Thus they affect and condition units of LIFE upon each of these receiving planets. We have seen man incited to progress by the nature of the forces of divine attraction and have noted the differing divine qualities which this play of energies evokes in humanity_ as well as in all other forms of LIFE. We have perhaps emphasised almost to the point of bewilderment the vast aggregation of impelling energies which play throughout our cosmos; individual man may well be stunned by a sense of his helplessness and his unique futility. But this is only due to the relatively undeveloped state of his "receiving apparatus. When thus bewildered let him remember that potentially he possesses the creative ability to build and gradually to develop a better mechanism of reception which will enable him finally to be responsive to all impacts and to every type of divine energy. This capacity is indestructible and is itself a divine focus of energy which must and will without fail carry forward the good undertaken under the inspiration of The Great Architect of the Universe. He fashions all things to a divinely foreseen end and in this sign_ through His agents, VENUS and VULCAN, typifying the form and the SOUL_ will lead man from the unreal to the real.
